AI Receptionist & Appointment Setter

1 Introduction

Understand current call & booking process

Build rapport with prospect

35% of calls to service companies go unanswered

Missed calls = lost customers & revenue

Receptionist costs are high: $35K–$45K/yr

3 The Solution – AI Receptionist + Appointment Setter

Answers calls, texts, website chats instantly

Handles FAQs, pricing, hours, directions

Books directly into your calendar

Works 24/7, never sick, never late

70% to 90% less cost than a receptionist

If you miss 5 calls per week at $500 each = $10K/month lost revenue.

AI ensures every call is answered & booked.

5 Social Proof

40% more booked appointments

$3K–$5K payroll savings monthly

Higher customer satisfaction

6 The Offer

7 Objection Handling

- Objection: "We already have a receptionist"
- Response: AI works 24/7 and never missed calls – receptionist + AI = no lost leads.

- Objection: "Too expensive"
- Response: Costs 70% less than a full-time hire – one saved client per month pays for the system.

- Objection: "Will it sound robotic?"
- Response: Trained on natural conversation –customers can't tell it's AI.

- Objection: "Not sure if it will work for us"
- Response: That's why we offer a risk-free trial package.

"Do you want to start with the full system today, or begin with our trial package to see results first?"
