Change is the only **constant**. But it brings **opportunity**.

DIGITAL25

One more chance...

The pace of change in IT, digital services, security and AI is relentless. It will accelerate 10x in 2025.

Threats to your business will be more sophisticated than ever. We have a duty to keep you ahead on the security curve and informed on imminent EU legislative requirements such as the NIS2 Directive.

But change also brings opportunity - smarter ways of working so you can take advantage of new **opportunities to excel** in your sector.

This is **DIGITAL25**.

Following our series of booked-out in person events, **Digital25 is back by demand** for a special one-off live webinar.
