

N4C Session #2 wrap-up: Replay, Q&A, more

Dear N4C Member,

Thank you for joining us for Session #2 of our 2-part series, *"Elevating Your Photography with a Professional Portfolio Website."*

It was really fun to present some of the "ins and outs" of the SlickPic service and we hope you learned a lot and are inspired to showcase your amazing images — don't let them sit on a hard drive!

Missed the session or want a refresher?

You can watch the full replay of BOTH sessions on our SlickPic YouTube channel – [click here](#) — or just [Session #2 by clicking here](#)

Group Photo Share

If you'd like to contribute a photo or two to the **N4C Group Album**, [please click here to upload an image](#). We'll give you the weekend to upload your photos, but even now you can see some terrific entries!

- View it on Desktop: <https://slickpic.us/17084654TAKT>
- View the images on your smartphone (with a MobiAlbum) : <https://slickpic.us/17084655DgNI>

For more info about MobiAlbums, please [click here](#).

The “Homework Sites”

Special thanks and applause to the following folks for building their own Portfolio sites this week! Please visit their websites and leave a comment or two:

- [David Hathaway](#)
- [Vicki Anderson](#)
- [Jennifer G. O'Donnell](#)
- [John Erve](#)

Q&A

There were a few questions during today’s webinar that we wanted to make sure got fully answered:

- Ideal size for a Portfolio site logo is about 300px wide
- You can easily modify anything written by MagicFill AI
- Blog images can be uploaded directly into the blog, but the preferred method is to upload them into Organizer and then link directly to them
- If you make a SlickPic site and want to use a custom domain name you already have, you can keep it with your current domain registrar and point it to your SlickPic site, or you can transfer the domain to us
- We support ecommerce stores for digital downloads and self-fulfilled print orders
- If you start with a SlickPic-designed Bespoke Portfolio to get started, you can absolutely maintain it yourself if you like
- The SlickPic Pro plan includes everything you saw in the training sessions and much more
- Collections work like Lightroom. You can grab images from multiple Albums and use them in a Collection. A great example is using a Collection for your Home page (in which you might want to show a wide range of photos from different Albums)
- If you have a paid SlickPic account now and want to downgrade to our Free plan when it expires, you can easily do that. Just keep in mind that you might lose features that you enjoy now

SlickPic FREE Plan

As mentioned at the end of the training, we have just released our new FREE plan, perfect for Camera Club members who want to showcase their photography in a very professional way! Here's how to get it:

- Go to our website at www.slickpic.com and click the blue button at the top right of the site that says "Start for Free".
- Set up your SlickPic account and you'll be off to the races! We have nice tutorials and emails that come every day to you for a week or so to help you get started.
- Our new Free plan gives you full access to every feature SlickPic provides however you are limited to 100 images total and, if you build a website, you are limited to 100 visitors per month. For a lot of people, that will be enough to try out SlickPic, make a gallery and website, and share your images with friends, family and others — have fun!
- *Note, if you created a "Guest Upload" account on SlickPic for the Fotoclave competition last year, you will not have the ability to build a website (with that account). Please email theteam@slickpic.com for instructions and we'll get you set up!*

More Helpful Resources:

- We offer training every week, generally on Friday mornings. To sign up, please visit www.slickpic.com/welcome
- Check out this helpful article and [video by Scott Kelby & Stella Kramer on building a great photography portfolio](#)

Have a wonderful weekend, and happy shooting! 

Kind regards, **Kevin, Sam, and the SlickPic Team**

PS: If you'd like to see the 2024 Scott Kelby's World Wide Photo Walk images, [click here](#) - they are fascinating and inspirational!
