GOLDEN
TECHNOLOGY

Who We Are?

Golden Technology is a U.S.-based IT services and consulting firm with a global delivery model that emphasizes onshore, offshore, and nearshore excellence. We specialize in delivering flexible, scalable, and outcome-based solutions through high-performing teams across the globe. We have deep experience supporting retail organizations with mobile applications, eCommerce platforms, and high-traffic customer-facing websites.

What We Do?

Our capabilities span fullstack development, cloud engineering, QA automation, data services, and more. We ensure each engagement is powered by highly skilled talent, proactive management, and a readiness to scale quickly. We specialize in building and scaling mobile apps and digital commerce platforms that drive customer engagement and conversion.
