DATA CONSULTING

## EMPOWER YOUR BUSINESS WITH DATA-DRIVEN, CUSTOM DASHBOARDS & REPORTS

Business leaders across industries need actionable insights to make timely, informed decisions. However, many standard tools lack the flexibility to provide a complete and customised view across various business functions.

ASI Data Consulting addresses this gap by delivering tailored dashboards, reports, and calculators—designed to consolidate data and perform complex calculations, presenting insights in intuitive, role-specific formats. Our solutions empower leaders to act on critical insights and confidently plan their next strategic moves.

### Overview

Go beyond traditional reporting with:

- **Custom Reports and Dashboards:** Fully customisable solutions that provide relevant, detailed insights specific to each department's needs.
- **Interactive Visualisations:** Engaging, easy-to-understand charts and graphs that make complex data accessible and actionable.
- **Specialised Calculators:** Custom-built calculators, including property development, financial, and mortgage calculators, tailored to support strategic planning and financial analysis for industries such as real estate and finance.

### Creating Real World Impact

ASI Data Consulting has helped companies across multiple industries by delivering efficiency and empowering data-driven decisions. With our custom solutions, clients typically achieve:

Reduction in Data To Insights Time

Improvement in reporting efficiency, allowing teams to focus on strategic initiatives.

## OUR TECHNOLOGY

At ASI Data Consulting, we create fully customised data solutions that reflect your unique brand identity. Each dashboard, report, and calculator is designed from scratch—using your logo, colour scheme, and brand guidelines—to ensure it aligns visually and functionally with your business. We don't use generic templates; instead, we craft each element to deliver insights that are relevant, branded, and truly yours. With ASI, your data solutions are distinctive, professional, and tailored specifically to your organisation's needs.

### Advanced Analytics and Insights

- **Custom Reports and Dashboards:** Go beyond standard reports with tailored solutions that provide detailed insights specific to your industry and business needs.
- **In-Depth Data Analysis:** Transform raw data into valuable insights, helping you identify trends, track performance, and support strategic decision-making.
- **Interactive Visualisations:** Enhance data comprehension with visually engaging charts and graphs that simplify complex information into an easy-to-digest format.

### Operational Excellence and Scalability

- **Quick Implementation:** Reduce setup time with an agile approach to implementation, enabling faster access to key insights.
- **Adaptable Solutions:** Our dashboards and reports scale with your business, providing the flexibility to integrate new data sources and adapt as your needs evolve.
- **Data Security and Access Control:** Ensure data security with robust protection features, including role-based permissions and secure data management.
