

Making Life More Secure & Convenient

LOCKOO, a proudly local brand, is dedicated to delivering top-quality digital smart locks built on trust, reliability, and excellence.

Trust: Your safety and privacy are our top priorities, offering secure and dependable smart locking solutions.

Quality Products: LOCKOO products undergo rigorous testing to ensure durability and superior performance.

Quality Service: Our commitment to excellence goes beyond our products, providing exceptional service and support.

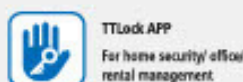

Choose **LOCKOO** –
where trust meets innovation.

TTLOCK BLUETOOTH SYSTEM

TTLock Bluetooth System is for smart lock management, it includes smart hotel management, home security, employee attendance, etc. It Compatible with Amazon Alexa and Google Home.

You can unlock the smart lock via TTLock APP, send e-Key to another TTLock account, the recipient can unlock via TTLock APP. You can set the usage period of the password or card for tenant, they can check-in by themselves. You also can check the unlock record in smart phone app anytime.

Intelligent Bluetooth Hotel System

Introduction:

"Smart Hotel Card Issuing System" is an intelligent management software developed by Sciener Intelligence. It includes various functions such as room hardware control and fast check-in.

- It solves all kinds of problems encountered in hotel management and improves management efficiency. It is a good choice for management of centralized hotels and decentralized apartments.
- This system consists of a PC-side management system and an APP. It is convenient to manage anywhere.

Remote Control by Connecting to G2 Gateway

- The G2 gateway function in the TTLock APP is to allow the user to remote unlock and change the password.
- This is to enable the user to modify or delete the password when they are not close to the door lock.

Parameter:

Model:	G2
Color:	White
Dimensions:	70×70×26mm
Network:	WiFi 2.4G
IEEE Standard:	802.11b/g/n
Power Interface:	Type-C USB port
Power Input:	DC5V / 500mA

TUYA SMART HOME SYSTEM

Tuya Smart Home System has rich equipment access capability, compatible with most Tuya equipment. It can easily realize the precise control of lighting, curtain, air conditioner and other intelligent devices. Truly realize the control of the whole family and the interconnection of the whole house.

There are three common communications, the Tuya WiFi, Tuya Zigbee and Tuya Bluetooth Mesh. The Tuya Zigbee and Tuya Bluetooth Mesh communication are compatible with Amazon Alexa and Google Home via connecting to Tuya gateway.

Tuya WiFi

The wireless standard IEEE802.11a can reach 54Mbps, the radio wave coverage radius can reach 100 meters.

- Support WiFi+BLE dual-mode, 2.4GHz+5GHz dual-frequency.
- EZ (smart configure) + AP (access point) distribution network coexistence.
- Support routers for device discovery and adding devices.

Tuya Zigbee

- Stable communication within 100 meters of open space. Remote control by connecting to the gateway.
- Single point of failure has no impact and supports localized operations.
- 100+ stable connections, supporting all types of Tuya devices.
- Ultra-low power consumption, microamp level, high safety performance.

Tuya Bluetooth Mesh

- Many-to-many self-organizing mesh network, the number of device connections increases exponentially.
- Support gateway and local dual link control (asynchronous).
- Optimize for large-scale equipment network.
- Frequency hopping, anti-interference. Ultra-low power consumption, microamp level.

TUYA Zigbee Gateway & TUYA Bluetooth Mesh Gateway

Tuya Zigbee Gateway

Parameter:

Model:	TYGWZW-01
Wireless Technology:	Wi-Fi 802.11b/g/n Zigbee 802.15.4
Adapter Output:	5V -1A
Working Current:	<1A
Working Temperature:	-10℃ ~ 55℃
Working Humidity:	10%~90%RH (No condensation)
Power Interface:	Micro USB port
Color:	White
Dimensions:	60.5×60.5×16.1mm

Tuya Bluetooth Mesh Gateway

Parameter:

Model:	TYGWBS-01N
Wireless Technology:	2.4G Wi-Fi BLE MESH(SIG)
Adapter Output:	5V -1A
Working Current:	<1A
Working Temperature:	-10℃ ~ 55℃
Working Humidity:	10%~90%RH (No condensation)
Power Interface:	Micro USB port
Color:	White
Dimensions:	60.5×60.5×16.1mm

What is the difference?

	Tuya Zigbee Gateway	Tuya Bluetooth Mesh Gateway
Communication:	Tuya Zigbee Communication only works with Tuya Zigbee version smart devices	Tuya Bluetooth Mesh Communication. It only works with Tuya Bluetooth Mesh version smart devices
Connection:	You need to add the gateway first before adding other Tuya smart devices	No requirement for the sequence of adding Tuya smart devices and gateways
Function:	Achieve remote control of Tuya smart lock, such as remote unlocking, view real-time status. Link with other Tuya smart devices and voice control by matching Amazon Alexa and Google Home.

Product Details

1

Semiconductor Fingerprint recognition

Using highly sensitive semiconductor 3D fingerprint sensor, the recognition area is larger than traditional optical fingerprint lock.

2

Anti-peeping Virtual Password

Enter any digits before or after the correct password to prevent prying. Up to 24 virtual passwords, including 6 to 13 correct passwords.

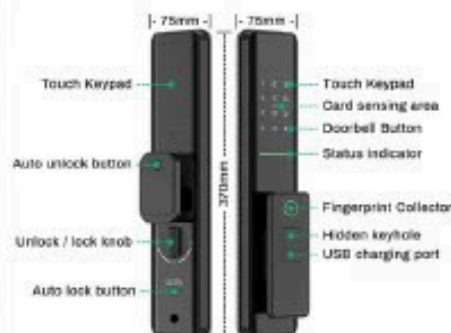

3

For Emergency Situation

With super C-class lock cylinder and USB charging port, in case the battery runs out of power.
