

PREMIUM WOOD SHAVINGS

Sustainably Sourced · Locally Milled · Agricultural Grade

A byproduct of local mills — diverted from landfill and processed into consistent, high-quality bedding for agricultural, landscaping, and composting use.

ADVANTAGES

— Sustainably Sourced

Byproduct of local mills — keeps waste out of landfills and supports the local economy.

— Consistent Quality

Uniform product in every bale. No surprises batch to batch.

— Strong Absorption

Highly absorbent and re-dries quickly, keeping barns drier for longer.

— Sterile Product

Does not introduce contaminants such as larvae or microbes into closed barn environments.

— Easy Clean Out

Shavings don't stick to floors, making clean-out fast and low-labour.

— Protected Packaging

High-quality tote bags protect shavings from moisture and harsh outdoor conditions.

— Bulk Storage

Compressed bales in large totes — easy to transport and store in quantity.

IDEAL BEDDING FOR

- Horse stalls & paddocks
- Cattle and dairy barns
- Broiler and poultry barns
- Landscaping & ground cover

TOTE SPECIFICATIONS

Tote Weight	~800 lbs
Tote Size	46" x 46" x 48"
Moisture Content	Avg. 12% (+/-2%)
Maximum Moisture	18%
Bale Format	Compressed 4x4 bales

SHIPPING CAPACITY

Super B Flatdeck	60 totes
53' Flatbed	52 totes

BARN COVERAGE PER TOTE

Coverage estimates based on one 800 lb tote.

1 inch depth	2,500 sq ft (232 m ²)
2 inch depth	1,250 sq ft (116 m ²)
4 inch depth	625 sq ft (58 m ²)

PREMIUM SHAVINGS

Our premium grade shavings can contain up to **25% sawdust fines**, significantly increasing absorbency. Ideal for high-demand barn applications where moisture management is critical.
