

SINK PLUMBING ASSEMBLIES

Have California Stainless install the highest quality chrome plated fixtures on your stainless or fiberglass sink. Choose the fixture and location to meet your specific requirements.

Backsplash height increased to 12" and width to 5" on Coved, Standard, or Temperature Sinks with order of Plumbing Assembly (Models PA1, PA2, PA3, or PA4). This provides faucet clearance, higher wall protection, and conceals plumbing connections, allowing sink to be against wall.

Wide Backsplash Returns, 5" deck, are ordered separately if individual deck faucets are ordered without Plumbing Assembly. (Models PA1, PA2, PA3, or PA4.)

Plumbing Assembly 1 (PA1) includes:

One concealed water temperature thermostatic control valve, one set checkstops, one 3½" dial thermometer, one Model WVB14 volume control valve with vacuum breaker for sink inlet swivel, one Model F62P faucet plumbed to temperature control valve, one Standpipe, one increased backsplash to 12" high and width to 5".

Plumbing Assembly 2 (PA2) includes:

Same as PA1 (above) plus one additional F62P faucet plumbed to temperature control, installed at opposite end.

Plumbing Assembly 3 (PA3) includes:

Same as PA2 (above) plus one 1201 Triple valve faucet plumbed to temperature control in center of sink.

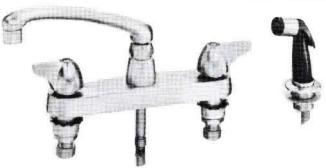

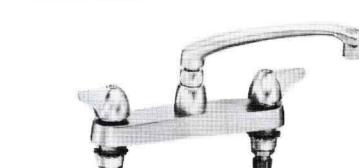

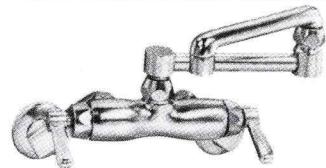

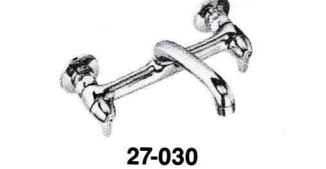

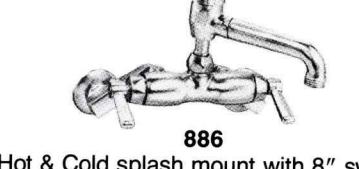

PA1 Plumbing Assembly & 1102 faucet illustrated.

Plumbing Assembly 4 (PA4) includes:

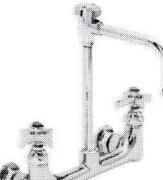

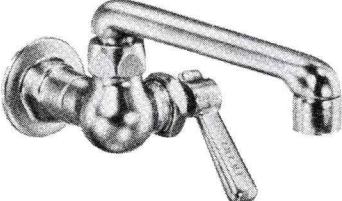

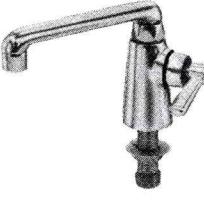

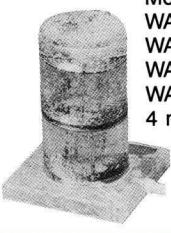

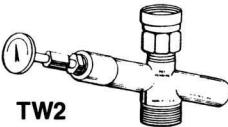

Same as PA2 Assembly, plus one 1200A Triple valve faucet with spray plumbed to temperature controls in center of sink.

Water Recirculating Systems

Model ATS plumbing attachment kit is designed for connecting California Stainless recirculating units (pages 18 & 19) to sinks. Kit includes directional inlet fittings, tees, hoses, and clamps. Sink holes punched at no additional cost.

 <p>1201 Triple Valve Faucet Hot, cold, and tempered water valve connected to concealed water regulator. Order with Plumbing Assembly—above.</p>	 <p>1200A Triple Valve Faucet w/Spray Same as #1201 plus spray. Order with Plumbing Assembly—above.</p>	 <p>F62 Mounted on sink, ¾" hose thread F62P Mounted & plumbed to water temperature regulator—above.</p>
 <p>1102 Hot & Cold deck mount with 8" swing spout and 4' spray extension.</p>	 <p>1100 Hot & Cold deck mount with 8" swing spout.</p>	 <p>445-DJ13 Hot & Cold splash mount with 13" double-jointed spout.</p>
 <p>27-030 Hot & Cold splash mount with 8" swing spout.</p>	 <p>886 Hot & Cold splash mount with 8" swing spout, vacuum breaker, ¾" hose thread.</p>	 <p>WVB14 Valve, Vacuum Breaker, plumbing from regulator and to sink or washer with swivel inlet. Ordered with the above Plumbing Assemblies when sinks are partitioned off for wash area.</p>
