

STAINLESS STEEL VENT-HOODS SUPPORTS FOR NARROW VENT-HOODS OVER WALK-AROUND SINKS

THERE ARE MANY WAYS TO SUPPORT THE MODEL: "SNVHWA" NARROW VENT-HOOD OVER A WALK-AROUND DARKROOM SINK. ILLUSTRATED BELOW ARE THE BEST AND SUCCESSFUL WAYS WE HAVE FOUND TO WORK WELL AND NOT IMPEDE WORK FLOW.

- #1. - PENINSULA SINK VENT-HOOD SUPPORTED AT WALL AND BY THE FLOOR
- #2. - PENINSULA SINK VENT-HOOD SUPPORTED AT WALL AND BY CEILING AND ANTI-SWAY PLATE
- #3. - ISLAND SINK VENT-HOOD SUPPORTED BY RODS FROM THE CEILING & ANTI-SWAY PLATES
- #4. - ISLAND SINK VENT-HOOD SUPPORTED BY THE FLOOR AT BOTH ENDS
- #5. - EXTRA LONG VENT-HOOD CENTER SUPPORTED THE WALL (OR FLOOR) AT ONE END, BY THE FLOOR AT THE OPPOSITE END AND SUPPORTED AT THE CENTER BY CEILING RODS
(SEE CATALOG PAGE #1-4 FOR DETAILS ON NARROW VENT-HOODS)

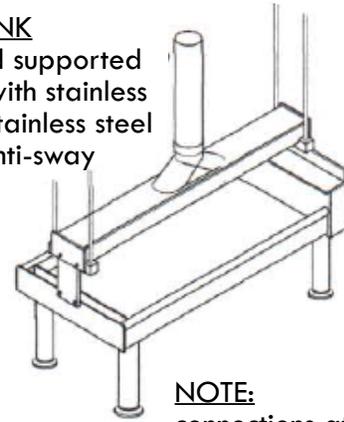

#1 PENINSULA SINK

with vent-hood supported by a wall and floor

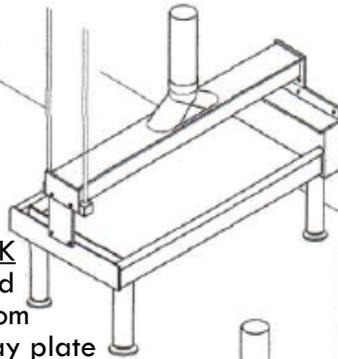

#3 ISLAND SINK

with vent-hood supported at both ends with stainless steel beams, stainless steel sleeves and anti-sway plates

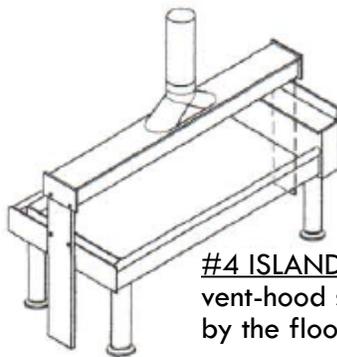

#2 PENINSULA SINK

vent-hood supported by a wall & rods from above with anti-sway plate

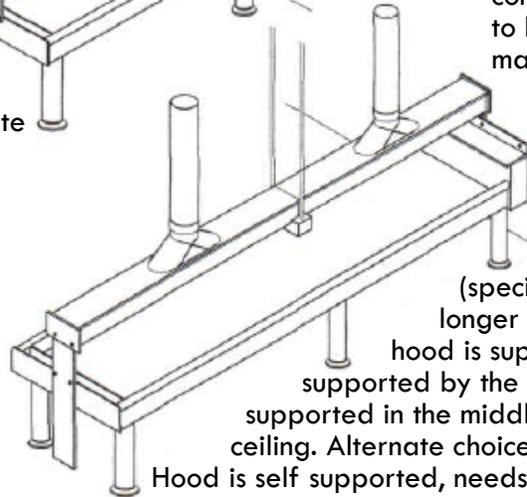

NOTE:

connections at ceiling to hang rods shall be made by others

#4 ISLAND SINK

vent-hood supported by the floor

#5 PENINSULA or ISLAND SINK

(specify choice) for sinks longer than 10'. The vent-hood is supported by floor or supported by the floor and wall and supported in the middle by rods from the ceiling. Alternate choice: SWVHWA Wide Hood is self supported, needs no center support.

(NOTE: ALL VENT-HOOD STACKS ARE 8"Ø STAINLESS STEEL FUME DUCT AND WILL FIT A CEILING 10' HIGH)
