Curved-Edge

Contemporary laminate surfaces

Diversite Curved-Edge has a 3mm radius curve on the top and bottom edges of the worktop, breakfast bar and island units.

**Upstands come with a 6mm radius on the top edge.
Splashbacks are square cut.**

Great choice

What will it be? Wood or stone, Classic or abstract?
All Diversite Curved-Edge surfaces are available with a collection of 40 stunning décors to choose from.

Hygienic design

All Diversite Curved-Edge surfaces are made of durable moisture resistant materials that have fewer joints meaning there are less places where dirt can get trapped. Therefore they are easy to keep clean, making them extremely hygienic.

We know a great deal of thought has to go into designing your perfect kitchen. From the choice of cabinets and flooring, to the style of sink and tap, it's important everything fits together and colour matches perfectly.

With this in mind, we've developed Diversite Curved-Edge so it can be used in a number of versatile ways within your kitchen.

1. Worktops

Sinks, drainers, taps and hobs can all be fitted into the worktop, whilst ovens, dishwashers and other appliances can be fitted below. As worktops take up the biggest surface area in your kitchen, you need to be sure you have the right colour choice. That's why 40 décors are available for you to choose from.

2. Breakfast bar and island units

Available in both 665mm and 900mm widths, these are often the social hub of the kitchen and the surface where most food is prepared. They are available in all of the 40 Diversite Curved-Edge décors.

Why not use a contrasting décor for your island unit as we have done in this image.

3. Upstands

Easy to install and maintain, upstands are a very cost-effective way of protecting your walls from impact and splashes. They are available in all of the 40 Diversite Curved Edge décors.

4. Splashbacks

A cost effective and easy to clean alternative to traditional tiles, without any unsightly grout lines. Because they are available in all of the 40 Diversite Curved-Edge décors, splashbacks can create a stylishly seamless look with an identical décor and texture to your worktops and upstands. Splashbacks can also be used as a distinctive feature wall either in your kitchen or anywhere else in your home.

Beautifully tough Worktops

Worktops used in the kitchen or utility room need to be versatile.

They have to be hard wearing yet look great.

They must also accommodate hobs and drainers from above, while enabling ovens, dishwashers and other appliances to work uninterrupted below.

It's why all Diversite Curved-Edge surfaces are made of hygienic, durable materials that work perfectly with everything in your kitchen and utility room.

A choice of 40 stylish décors and 6 textures are available including dazzling stones, realistic woods and original abstract designs.

Each worktop has one long curved edge to give seamless protection.

Worktop dimensions:

3600 x 600 x 40mm

1800 x 600 x 40mm

Sociable surfaces

Breakfast Bars and Island Units

With the addition of a Diversite Curved-Edge breakfast bar or island unit, you will be creating a social hub in your kitchen.

You'll have more room to prepare food,
share meals and simply relax
with friends and family.

Available in the same 40 décors and 6 textures as all the other
Diversite Curved-Edge surfaces.

The two long edges of the breakfast bars and island units
have smooth curved edges to give a seamless look and
to reduce the risk of young children hurting themselves
by running into a sharp edge.

And thanks to the choice of dimensions available, wasteful offcuts
and joints are kept to a minimum.

Breakfast bar and
island unit dimensions:

3600 x 665 x 40mm

1800 x 665 x 40mm

3600 x 900 x 40mm

1800 x 900 x 40mm

Wall protection

Splashbacks and upstands

Splashbacks and upstands share the same 40 décors and 6 textures that are used by the worktops, island units and breakfast bars. They deliver an easy to clean, beautiful and cost-effective protection for your walls.

Splashbacks

An increasingly popular alternative to tiles because splashbacks don't have unsightly and unhygienic grouted joints and they are far less expensive to install.

Each splashback is delivered with square cut edges. This is because splashbacks are usually installed up to the edges of your walls, worktops and cabinets, so they do not need curved edges.

Upstands

Featuring a curved top edge, Diversite Curved-Edge upstands provide a seamlessly hygienic barrier between the wall and the worktop.

Splashback dimensions:

3000 x 1210 x 8mm

Upstand dimensions:

3600 x 100 x 18mm

Square-Edge

Contemporary laminate surfaces

Gain the edge

Colour. Texture. Touch. All play a key role when choosing your new kitchen surface. It's important however not to overlook the style of edging for your worktops, breakfast bars and island units. After all, it's only natural to want your kitchen to look the part from every angle.

With Diversite Square-Edge laminate surfaces you get the same crisp and clean-cut lines you get from high-end natural stone and real wood products, but at a fraction of the cost. And the benefits don't end there. Like all laminate surfaces, Diversite Square-Edge is a breeze to clean and provides a super hygienic and versatile option for your home.

diversite
collection

Square-Edge
Contemporary laminate surfaces

Better all around

All worktops, breakfast bars and island units have a decorative surface on the top, underside and all edges giving you a seamless finish from every angle.*

*2020mm long worktops have two long edges and one short edge bonded with a decorative surface.

Through thick and thin

Diversite Square-Edge worktops, breakfast bars and island units are all available in both 22mm and 40mm thicknesses, giving you the freedom to stay consistent or mix things up.

Going strong

Worktops

Their name says it all, worktops are designed to do hard graft day in, day out. It's the reason all Diversite Square-Edge surfaces are made of highly durable materials that can stand up to our always on the go lifestyles in absolute style.

In addition to being hardwearing, Diversite Square-Edge worktops are able to accommodate sinks, hobs and drainers on top, while ovens, dishwashers and washing machines can be easily slotted below.

24 décors are available to choose from including marble, granite, concrete and numerous wood effects. Additionally, each worktop has its top, underside and all edges bonded with an identical decorative surface* to provide a beautifully seamless effect.

We're firm believers in reducing joints and minimising waste, which is why our worktops are available in a practical range of standard sizes ensuring you only have to purchase what you need for your design. They also have a standard 650mm width to allow appliances to be fitted underneath with room to spare for utility pipes and wires at the rear.

Worktop dimensions:

4050 x 650 x 22mm 2020 x 650 x 22mm*
4050 x 650 x 40mm 2020 x 650 x 40mm*

These standard size worktops can be precisely machined to the dimensions you need for your kitchen design.

*2020mm long worktops have two long edges and one short edge bonded with the same decorative surface.

A fine spread

Breakfast Bars and Island Units

More room to serve. Extra space to breath. Or simply a place to unwind. However you use your breakfast bar or island unit, the additional width and surface area they provide will quickly prove a recipe for success.

ITALIAN
MARBLE
(MATT)

Breakfast bars and island units are available in all Diversite Square-Edge décors in a wide range of standard sizes. What's more, as both sides and all edges are bonded with these décors even the underside perfectly matches the rest of your kitchen. Got something unique in mind? Then take advantage of our custom-made service (see page 14 for details).

Breakfast bar and island unit dimensions:

4050 x 900 x 22mm 2020 x 900 x 22mm*

4050 x 900 x 40mm 2020 x 900 x 40mm*

These standard size breakfast bars and island units can be precisely machined to the dimensions you need for your kitchen design.

*2020mm long breakfast bars and island units have two long edges and one short edge bonded with the same decorative surface

Endless style

Decorative end panels

Can you really have too much of a good thing? When it comes to the added protection, durability and style of Diversite Square-Edge we're firmly in the no camp. It's why we offer decorative end panels, which are designed to flawlessly fit at the gable or open end of your cabinets to create a seamless look that's perfectly colour coordinated with your worktops, breakfast bars and island units.

**CARRERA
MARBLE
(MATT)**

Both sides and all edges of each end panel share the same exact décors as all other Diversite Square-Edge surfaces and are available in both 22mm and 40mm thicknesses to ensure complete uniformity with other surfaces.

Beautiful barrier

Upstands and splashbacks

.....

We understand a kitchen is no small investment, which is why we believe it pays to invest in splashbacks and upstands. This easy to clean, cost-effective protection for your walls will ensure your kitchen looks suitably delicious long into the future. Both are available in the full range of Diversite Square-Edge décors, ensuring the added value they provide doesn't come at the cost of style.

Splashbacks

Quick to install and even quicker to wipe clean, it's hardly surprising splashbacks are an increasingly popular alternative to tiles. The fact they don't feature unsightly and unhygienic grouted joints is also a big selling point.

Splashback dimensions:

3000 x 1210 x 8mm

Upstands

Upstands provide a seamlessly hygienic barrier between the wall and the worktop. When used alongside a splashback in a kitchen design, the 12mm thick colour matched top edge of the upstand provides a seamless ledge on which the 8mm splashback can be installed.

Upstand dimensions:

4050 x 100 x 12mm

Fits together beautifully

Single-minded simplicity

1. Cabinet framing

It's the little touches that count. By using 22mm Diversite Square-Edge you'll enjoy greater design harmony in your kitchen while also benefitting from a surface that's easier to clean and maintain than standard cabinet panelling.

2. Shelving

Bring added functionality without compromising style with colour coordinated shelving. What's more, as every 22mm Diversite Square-Edge surface features the same décor on both sides and all edges, it'll look the part from every angle.

3. Open cupboard spaces

Creatively coordinate all your available spaces by using 40mm Diversite Square-Edge panels on your open cupboard spaces.

4. Windowsills

22mm Diversite Square-Edge surfaces provide a distinctive alternative to traditional white gloss or UPVC windowsills. They're also a breeze to keep clean and less prone to colour discolouring from prolonged sunshine.

5. Worktops

As the largest surface in the kitchen, the décor you choose for your worktops goes a long way to setting the mood. If you want your kitchen to feel bigger, opt for lighter tones. Want to make it feel more intimate? Darker tones are your friends. Luckily, we've got a wide range of both. Don't forget, sinks, drainers, taps and hobs can be installed into the Diversite Square-Edge worktop, whilst cooking and washing appliances can be easily installed below.

6. Breakfast bar and island units

With the kitchen increasingly the heart of the home, extra space is priceless. With the addition of a breakfast bar or island unit you'll have more room for sharing meals, digesting the newspaper or simply sitting down with a brew. They also provide a perfect opportunity to inject a little visual contrast into your kitchen, as shown in this example.

7. Decorative end panels

Extend the colour coordination of your worktops, breakfast bars and island units by asking your installer to fit a matching Diversite Square-Edge decorative end panel at the gable or open end of your cabinets.

8. Upstands

Easy to clean, quick to install and highly cost-effective, coordinated Diversite Square-Edge upstands create a stylish protective barrier where your worktops meet your walls.

9. Splashbacks

This cost-effective alternative to traditional tiles helps beautifully tie your kitchen together. In addition to creating a colour coordinated protective wall panel behind the worktop, splashbacks are also easy to wipe clean.

Guaranteed to deliver

Lifetime warranty

The style and practicality you desire today,
the peace of mind you demand for
tomorrow. That's the beauty of Diversite
Square-Edge, which includes a lifetime
warranty against manufacturing defects so
you can be fully confident you'll enjoy your
new kitchen for many years to come.

Every Diversite Square-Edge surface also comes with
a simple set of guidelines to help you keep it looking
super fresh with minimum fuss.

What's more, in the unlikely event your surface
shows unexpected wear and tear you have our word
we'll make good by repair and/or replacement
any surface shown to have failed due to an issue
with design, materials or workmanship.

CONCRETE
WOODPRINT
NATURE

Remarkable style, remarkably slim

Diversite Kompact

Great design rarely shouts, but rather quietly commands.
Such is the case with Diversite Kompact worktops.
Quick to install and impossible to ignore, they provide the
perfect option for contemporary kitchens and utility areas.

Why choose Kompact?

Stunning appearance of natural stone
or marble without the heavy price tag.

**Impressive impact and
abrasion resistance** thanks to
its solid construction.

Completely waterproof, enabling you
to integrate with stylish drainer grooves
and sleek undermounted sinks.

Hygienic design ensures liquids can
be easily wiped away without any
surface absorption, greatly reducing
the growth of bacteria.

Quicker and easier to install than real
stone or marble products, Kompact doesn't
require any time-consuming surveys and can
be installed with regular woodworking tools.

Ready for action

Worktops

Diversite Kompact worktops aren't simply designed to catch the eye. They're designed to be used. Day in, day out. It's why they're made of durable, waterproof materials that can withstand both the hottest kitchens and wettest bathrooms.

Hardworking by design

Save money by installing an inset sink and separate drainer or splash out on a sleek undermounted sink fitted with integrated drainer grooves.

Kompact worktops are designed to perfectly integrate all your kitchen appliances.

Hobs can easily be fitted into Kompact worktops with a pan drawer below.

And a single oven can be fitted with a filler panel below.

IRON OXIDE
SLATE

Splashbacks and upstands are a cost-effective and hygienic alternative to tiles.

Innovation comes naturally

Authentic textures

We believe the way a worktop feels is just as important as the way it looks. It's why we've applied three distinctive textures across the Diversite Kompact range to give each of the eighteen décors a highly natural feel.

Slate

Highlighted by an embossed matt finish,
Slate offers a deeply textured finish.

Nature

This texture provides a subtle satin feel, suggesting
the raw sensation of natural stone.

Matt

Providing a cool and smooth texture, matt evokes
the feel of fully finished marble.

To optimise functionality, every Diversite Kompact worktop, breakfast bar and island unit features the same stylish decor on the surface and the underside. The coloured edges of each décor are also shown. Please note, we have price bands A and B, where A is the lowest price and B is the highest price. This is due to different levels of décor and core colour sophistication.

The image displays a detailed, high-resolution texture of a concrete surface with a wood grain pattern. The texture is composed of various shades of gray, from light to dark, creating a realistic wood grain effect. The pattern is irregular and organic, mimicking natural wood grain. In the top left corner, there is a white circular logo containing the text "CONCRETE WOODPRINT NATURE SCALE 1:1".

Solid-Wood

Contemporary natural surfaces

Solid performance

Work surfaces

As the most hard wearing surface in your home, it's essential your kitchen worktop be strong and resilient. Of course, it needs to look the part too. And offer long-term value and long-lasting style. It's why we created the Diversite Solid-Wood range of work surfaces.

Made of hygienic, highly durable waterproofed timbers, every product in the range naturally matures over time to reveal richer colours that will continually enhance your kitchen.

A choice of four classic solid woods is available, including striking oak, warm beech and the rich, darker tone of walnut. Furthermore, curved corners can easily be achieved thanks to the great versatility of timber.

Work surface dimensions

European Oak and European Walnut

2000mm x 650mm x 40mm

3000mm x 650mm x 40mm

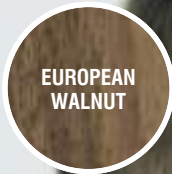

4000mm x 650mm x 40mm

Rustic Oak and Rustic Beech

3000mm x 650mm x 30mm

3000mm x 650mm x 40mm

Beautiful breathing space

Breakfast bar and island units

More room to entertain friends and family.
An extra surface for food prep. A handy homework base. Whatever your reason for choosing a Diversite Solid-Wood breakfast bar area and island unit, you can be confident it will beautifully complement your main kitchen work surfaces.

Available in the same four classic solid woods as the main work surface range, they can also be curved to follow your existing cabinet design. Matching gable end panels can also be fitted to provide a stylish finishing touch to the heart of your home.

3000mm x 900mm x 40mm

We've got you covered

Upstands

When investing in a new kitchen, it's only natural you want to enjoy the benefits for years to come. That's where upstands can make a real difference. They protect your walls from unwanted damage, while also providing a stylish and hygienic barrier. Best of all, they're easy to wipe clean and quick to install.

To ensure a flawless continuation between surface and wall, Diversite Solid-Wood upstands are available in the same four classic solid woods as the main work surface range. They're also easy to oil and maintain, ensuring they mature and naturally deepen in colour at the same rate as your main surfaces.

Upstand dimensions

3000mm x 100mm x 20mm

The story behind the surface

Proven quality

From tree felling to final installation, our single-minded vision is to deliver kitchen work surfaces of exceptional quality, strength and visual appeal. No exceptions, no excuses.

At every stage of manufacturing we draw on both our traditional craft skills and the latest manufacturing techniques. We begin by selecting timber from responsible forests, which is then carefully seasoned to reduce moisture. This process naturally strengthens the wood and makes installation easier.

Then it's time to create our work surfaces from precisely manufactured solid wood blocks (staves) of seasoned timber. The staves are bonded together with finger joints and a specialist adhesive. The result? A beautifully strong surface with square cut ends that can either be retained for a contemporary feel, or machined to your own choice of profile. The decision, as ever, is yours.

Forever forward-thinking

Sustainability

Diversite craftspeople give as much thought to sustainability as aesthetics. Always have, always will. After all, good forest management isn't just vital to ensuring future generations can enjoy our woods and forests. Our very industry relies on it.

It's why all our timber is certified in accordance with the rules of the Forest Stewardship Council®. What's more, the use of solid wood staves in the production of Diversite Solid-Wood work surfaces ensures that we maximize the amount of wood that's used from the tree.

The mark of responsible forestry

Natural born thrillers

Spectra Solid-Wood collection

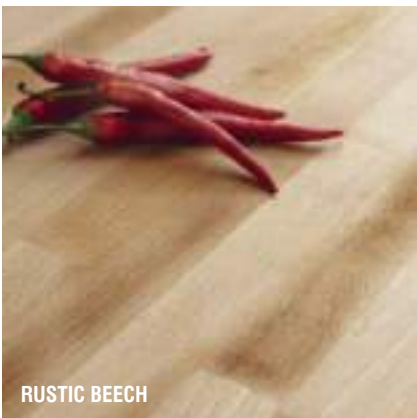

Offering enduring quality and timeless style, Diversite Solid-Wood work surfaces are a natural product that will slowly mature to a richer, deeper colour.

EUROPEAN OAK

RUSTIC OAK

RUSTIC BEECH

EUROPEAN WALNUT

Four distinctly different solid wood species are available in the range, which you can view in closer detail on the following pages.

EUROPEAN
OAK
Scale 1:1

Raw power

European Oak

Offering exceptional natural strength and hardness, oak has long been considered the material of choice for fine furniture makers.

It's a view shared by own craftspeople, who carefully colour match staves to create a consistent tone across the surface.
A tone that will naturally deepen to perfection over time.

Different by design

Rustic Oak

RUSTIC
OAK
Scale 1:1

Our Rustic Oak work surfaces are the natural choice if you're looking for a wood grain full of character and colour variety.

Providing the same signature strength and toughness as our European Oak work surfaces, the rustic finish is created by using contrasting staves.

RUSTIC
BEECH
Scale 1:1

Warm welcome

Rustic Beech

Add an invitingly warm tone
to your kitchen with our
Rustic Beech work surfaces.

The staves have been carefully seasoned to produce a
variety of subtle colours that complement almost any
kitchen scheme, while also providing the timeless beauty
and rustic charm that only wood provides.

Ingrained style

European Walnut

The naturally rich, dark tone of walnut adds instant standout to any kitchen, which is why it's now the go-to grain for many homeowners.

This tightly grained timber delivers impressive strength and style, ensuring you'll appreciate its striking appearance for years. An appearance that's further enhanced thanks to the carefully chosen, colour-matched staves.

The natural choice

*The staves of European Oak and European Walnut are carefully selected to closely match each other's colour and grain.

**The staves of Rustic Beech and Rustic Oak have an increased variation of colour and grain.

Time well spent

Protecting your surface

What is it that attracts so many to wooden surfaces? For some it's strength. For others it's the natural warmth. For many however, it's the fact that wooden surfaces slowly mature to a richer colour over time.

However, to enjoy the benefits of this versatile material for years to come does require a little regular maintenance.

That's where Diversite preserving oil comes in. Simply apply the oil to your work surface with a clean cloth every two or three months to enhance it with a richer, darker finish. It really is that simple. What's more, oiled surfaces are not only easier to keep clean, they're more resistant to water damage too.
