Description

2006 Donzi 32 ZF Open – Well-Maintained and Loaded with Features!

This Donzi 32 ZF Open is in great condition and has been well cared for over the years. Repowered in 2014 with Mercury Verado 300 engines (less than 600 hours). It's been regularly waxed and polished, and there's no dock rash or major wear to speak of.

The boat is equipped with an upgraded fuel tank that holds over 400 gallons, giving it plenty of range for extended trips offshore or to the islands. The Garmin electronics package includes twin 8612xsv displays, multiple sonars, depth finders, fish finders, video inputs for streaming, and an underwater high-definition camera. The system is fully integrated with Mercury VesselView 5, providing detailed information about navigation, the boat's surroundings, and engine performance.

The rigging and setup of the navigation and electronics were done with precision. Additional sensors and features were added to enhance situational awareness and reliability, ensuring dependable operation in any conditions.

The boat also features Lumitec high-definition underwater lights, adding both functionality and an impressive visual touch for nighttime use.

For added safety, the boat has an upgraded bilge pump system with multiple additional pumps installed throughout. Maintenance has been thorough, including fuel system treatment, sonic cleaning, calibration, and inspection of all 12 fuel injectors, along with filter servicing.

The boat also includes a new, custom full cover with access points for easy entry while installed, offering protection and convenience.

The interior was completely reupholstered less than two months ago with high-quality, custom-embroidered materials. It also has new SeaDek flooring, Yeti coolers, and a fully serviced trailer with new hubs and brakes.

This boat has been well taken care of and is set up for fishing, cruising, or longer trips offshore.
