## **BLACK MULCH**

Black Mulch made from a variety of species of recycled wood. The chips are colored with natural pigments that resist fading. Other available colors are Red and Brown. Black Colored Mulch is an economical alternative to bark based mulch products and is available in 2 particle sizes. Use to control weeds and erosion, and to retain soil moisture.

## **SPECIFICATION GUIDELINES**

The mulch shall be derived from 100% recycled wood waste and tree trimmings colored with non toxic natural pigments that resist fading. Mini Black Mulch is screened to an average particle size of 1 inch minus; the large to an average size of 2 inches.

Suggested minimum application rate is 6 cubic yards per 1,000 square feet to provide coverage of approximately 2 inches.
