

# Protected 70 Fund

<b>Launch Date</b>	5th May 2010
<b>Fund Size</b>	€19 million
<b>Current Component Funds</b>	Dynamic Fund, Cash Fund

## Fund Description

**Protected price:** Equal to 70% of its highest ever unit price

**Indicative allocation to the Dynamic Fund:** 90% to 0% of the value of the fund

**Indicative equity range of the Dynamic Fund:** 75% - 100% of the value of the fund

The aim of the Protected 70 Fund is to offer you the potential to earn real investment returns while limiting your exposure to risk. The fund is an actively managed fund which invests up to 90% in the equity based Dynamic Fund and the balance in a cash fund. The fund has a Protected Price equal to 70% of its highest ever unit price. The protection to the fund from falling below this Protected Price is provided by Barclays Bank plc\* and not by Zurich Life. The allocation to the Dynamic Fund varies between a target maximum exposure of 90%\*\* and a minimum of 0% depending on investment conditions and how close the Fund's price is to its Protected Price. The fund will reduce its allocation to the Dynamic Fund when the Dynamic Fund unit price is falling, protecting the Fund from further falls. It will increase its allocation when the Dynamic Fund unit price is rising, allowing the fund to benefit from future rises. This fund invests some of its assets outside the eurozone so a currency risk arises for a euro investor.

\* Zurich Life reserves the right to replace Barclays Bank plc with another institution at any stage.

\*\* 90% is the target maximum exposure to the Dynamic Fund. It is possible for the Fund to have a higher exposure to the Dynamic Fund at certain times.

† The underlying Dynamic and Cash Funds are managed from the point of view of a eurozone investor by Zurich Life. Barclays Bank Plc calculates the allocation to the Dynamic Fund on a daily basis.
