# The summit will create debates and stimulate thinking around:

**H**ow can women come together and play a role in building and empowering their communities?

# What our partners say

“

I was honoured to attend the conference last year, it was one of the best events that has given women in the UK and worldwide an opportunity to present and promote the role of successful global women in a changing society. I was delighted to take a stand and speak at the conference. I spoke about myself, the journey as a woman, professional psychiatrist, and perhaps the more entertaining side was my personal experience with my daughter, artist **Rita Ora**. I truly believe that Global Woman is one of the best platforms for everyone to be inspired and also help further empower all women in the world.

**Vera Ora**, psychiatrist  
– the mother of Pop Star **Rita Ora**
