

First Principles & Concepts

FP&C is a **SBA-Certified Service-Disabled Veteran-Owned Small Business (SDVOSB)** that specializes in developing innovative, efficient, and strategic solutions for the Healthcare, Energy, and Transportation industries. We challenge assumptions and focus on core principles to optimize services, reduce expenditures, and achieve measurable outcomes.

Foundational Strengths

At FP&C, we provide expert solutions to help government and private-sector organizations enhance efficiency, ensure compliance, and achieve long-term success. Our deep industry expertise enables us to support organizations in securing funding, navigating regulatory requirements, and driving innovation in infrastructure and operations.

Project Management

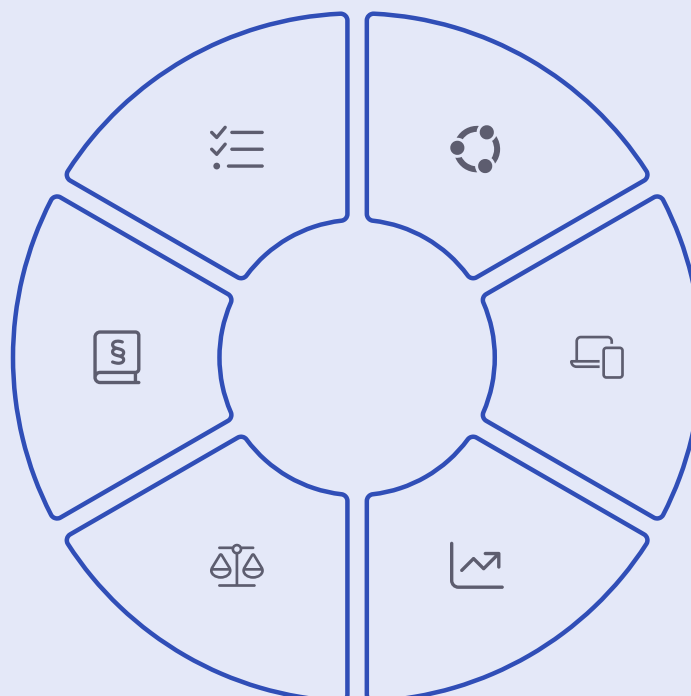

Ensuring efficiency, compliance, and timely execution of projects

Regulatory Compliance

Meeting industry-specific legal and operational standards

Risk Management

Identifying and mitigating financial, operational, and strategic risks

Operations Optimization

Optimizing workforce, procurement, and financial management

Technology Integration

Leveraging technology, automation, and process improvements for efficiency

Growth Initiatives

Expanding market presence, securing funding, and driving business development

Key Clients & Past Performance

Defense Health Agency (DHA) & Veteran's Administration (VA)

FP&C helps healthcare organizations—including federal agencies, hospitals, clinics, and private healthcare systems—streamline operations, reduce risks, and improve service delivery. Our expertise covers regulatory compliance (HIPAA, CMS, Joint Commission), workflow optimization, financial sustainability, and workforce management.

Department of Energy (DOE)

FP&C helps government and private-sector organizations achieve energy efficiency, compliance, and sustainability. With expertise in grant analysis, procurement, and DOE-funded programs, we secure funding, optimize resources, and drive innovation. Our knowledge of FERC, NERC, EPA, and NEPA regulations ensures effective risk management and regulatory compliance.

Department of Transportation (DOT)

For transportation and infrastructure providers, FP&C delivers solutions that enhance efficiency, manage risks, and ensure compliance in both government and commercial operations. With deep expertise in industry regulations—including FTA, FHWA, and FRA—we help organizations refine processes, strengthen financial planning, and optimize workforce strategies for sustainable growth.
