

IMPLANT COURSE

PLEASE JOIN GLOBAL DENTAL PARTNERS FOR A TRULY AMAZING OPPORTUNITY TO LEARN HOW TO PLACE IMPLANTS OR IMPROVE YOUR ABILITY TO PLACE IMPLANTS. THIS THREE DAY COURSE WILL BE HELD AT OUR BEAUTIFUL DENTAL CLINIC IN MERIDA, MEXICO, NOVEMBER 4TH-8TH, 2024

Unlike many popular implant training courses with this course you will have the opportunity to personally place many implants on real patients and assist in the placement of many more. This practical hands on experience will allow you to return to your practice ready to place implants!

The implant training will be done with Neodent implants, the worlds most used implant system. However, the training you receive can translate to any implant system. Not only will you use the Neodent system, but, if you desire you can purchase a complete Neodent implant system at a discounted price.

This system includes an implant motor, implant handpiece, implant surgical kit, implant restorative kit and 25 implants. Plus healing caps, abutments and other parts you will need to successfully place implants. You will walk away from this course feeling confident and ready to implement implants into your practice or significantly increase your implant production.

The three day class will be preceded by two zoom instruction classes given by our doctors two weeks prior to the class in Mexico. These classes will help prepare you to arrive in Merida ready to learn and place implants.

The fee for the class also includes online or phone access to Dr. Ferrell or Dr. Eggett as you plan to place your first 5 implant cases. If you desire, for an additional fee, you can arrange to have Dr. Ferrell or Dr. Eggett travel to your office to help you in the placement of your first implant cases. This in office instruction can also include training for your entire team. Your team will learn techniques in case presentation, case acceptance, scheduling and billing.

Global Dental Partners is a humanitarian dental foundation and all the patients you treat at the implant training course will be patients that otherwise could not afford to have an implant. Your work during the class will be a great humanitarian effort that will bless many lives. You will also be privileged to do some humanitarian visits outside the dental clinic so you can get a feel for how the people you treat live. At the end of the course, we will take a day and have a fun outing that will allow you to get to know the Yucatan peninsula. Our local dentist, Dr. Marcela Gurrola will restore all implants placed. Your patients will be well taken care of.

COURSE DESCRIPTION:

- Learn how to properly diagnose and place implants.
- Treatment sequencing and treatment planning of implant cases.
- Methods of implant placement.
- Hands-on experience placing multiple implants and assisting with the placement of multiple other implants.
- Learn how to use implant placement tools.
- Presenting implant case fees with confidence.

THE FEE FOR THE COURSE INCLUDES THE FOLLOWING:

- Hotel accommodations at the Hilton Garden Inn, Merida.
- All ground transportation upon arrival to airport at Merida, Mexico.

- All implant training and materials used.
- Use of our modern, well equipped dental clinic in Merida, Mexico.
- Humanitarian visits and fun outing on last day.
- Three days of personal instruction from our implant instructors Dr. Robert Ferrell or Dr. Michael Eggett.

INSTRUCTORS:

DR. ROBERT FERRELL

MS, DMD:

As a Dental Surgeon & Periodontist, Dr. Ferrell has placed over 7,500 implants and has 22 years of experience. Dr. Ferrell is a sought after trainer and motivational speaker.

DR. MICHAEL EGGETT

DDS, FAGD, FICOI:

Dr. Eggett is a general dentist who has embraced implantology. He excels at digital dentistry, implantology, and enjoys helping others become more proficient at placing and restoring implants. Placing and restoring implants have become a daily part of his dental practice.

YOUR HOSTS:

DR. MARCELA GURROLA

PEDODONTIST, ORTHODONTIST

Dr. Gurrola is the Global Dental Partners local dentist at our clinic in Merida, Mexico. Dr. Gurrola has more than 10 years of experience placing and rehabilitating implants. She is our on sight host for our training courses.

GARY EVANS

FOUNDER AND CEO GLOBAL DENTAL PARTNERS

Gary has 15 years experience organizing and hosting humanitarian dental trips. Global Dental Partners has dental clinics in Merida, Mexico, Guatemala City, Guatemala, Byaguana, Dominican Republic, San Pedro Sula, Honduras, and Tegucigalpa, Honduras.

"Our recent dental implant training trip with Global Dental Partners to Merida Mexico was phenomenal! We saw dozens of patients, and placed many dental implants in the 3 days we were there. The facility and quality of care were impressive. The local team of dentists were super helpful and the patients were very gracious. The experience is a game changer and prepared us well to begin placing implants once we returned to our practices in the USA."

- Dr. Creed Cardon, DDS
