

GovXcel
AI-Driven Governance.

Company Overview

Built by Veterans. Driven by Mission. Enabled by Tech. GovXcel is a verified Service-Disabled Veteran-Owned Small Business (SDVOSB) delivering elite, technology-enabled teams to federal agencies. We specialize in cybersecurity, artificial intelligence, cloud modernization, and workforce transformation – combining military discipline with modern execution to meet and exceed mission objectives.

Our differentiators include:

- Branded, SOP-driven delivery teams (e.g., SentinelX, AI Force One)
- Veteran-led execution with cleared professionals (Secret/Top Secret)
- Rapid deployment capability (2–3 weeks)
- Proposal-ready SDVOSB with past performance & team bios
- Internal talent engine via [GovTalents.com]
- Alignment with federal priorities (Zero Trust, AI EO, Workforce 2030)

GovXcel
AI-Driven Governance.
