

Jene't C. Taylor

#therelieftrainer | PMP, CCA Certified

I provide RELIEF to churches & small businesses by offering virtual admin services and training for staff members to work in excellence so their leaders can solely focus on their call.

Called a "phenomenal perfectionist", Jene't Taylor provides much-needed relief for the pastors, community leaders, and small business owners she serves. Her spiritual gift of administration shines in her online platform as the Pastor Relief Trainer, and also in her 10-year tenure as church administrator for Christ Chapel Unadilla.

"When it comes to supporting, I believe you should always be one step ahead of your leadership. If I'm tormenting what they torment, then I understand what their needs are better and I can use that to assist at a level of excellence that gives them the freedom to focus on the bigger rocks, while I handle the day-to-day."

Whether it is back-end technology and support, or training staff or volunteers on the front lines, Jene't is the consummate administrator who uses her expertise to manage the details, while leaders walk out the vision.

What Others Are Saying

"I know I said this before, your message REALLY blessed me! I'm going to make sure we have you back for more training because we need it." - Pastor Sabrina Roach-Glover, Evergreen Church of Macon, GA

"Administry of Excellence changed everything for me. After the training, other leaders stepped up and begun to complete many of the things I felt compelled to do. This reduced my workload, gave other leaders a greater opportunity to serve, and increased the efficiency of the overall ministry." - Pastor Gregory McClendon, Christ Chapel Unadilla, GA
