For skin you'll love year after year!

Skin has natural defenses to help protect itself and recover from damage. But day after day, your skin is exposed to environmental stressors that can overwhelm its defenses and speed up visible skin aging. Our scientists' deep understanding of what causes premature skin aging led them to identify the right combination of ingredients to help skin look its best as you age. In fact, **did you know that only 20% of most visible skin aging is from the natural aging process?** The rest? You can help protect against.

UNIQUE SELLING PROPOSITION:

Reset the pace of skin's visible aging starting in as little as 2 weeks.*

TimeWise® Miracle Set® helps skin look its best longer. With just three easy steps, it helps support skin's critical needs during the day and unique function at night while adding a moisturizing SECOND INFUSION of the *TimeWise 3D®* Complex both day AND night.

***TimeWise 3D®* Complex and the ABCs of Skin Care**

The *TimeWise® Miracle Set®* is powered by the *TimeWise 3D®* Complex, which is included in every product. Available in skin-specific formulas, this set **defends the skin from age-accelerating free radicals; delays the look of premature skin aging with broad spectrum UVA/UVB protection; and delivers visible improvement of multiple signs of skin aging.** This scientifically proven, extensively researched and effective complex provides **three critical dimensions of skin support.** Think of it as the ABCs for skin: Antioxidants, Brightening and Collagen.

Antioxidants fight free radicals, which are known to accelerate the look of skin aging and are caused by environmental factors. The **encapsulated resveratrol** found in the *TimeWise 3D®* Complex provides triple antioxidant benefits and is shown to counteract the negative effects of free radicals on skin while working in harmony with natural antioxidants** to help support the skin barrier.

Brightening, or radiance, often diminishes when skin is unhealthy or when skin is compromised by sun damage that appears as dark spots. Daily SPF and proper skin care are must-haves to help reinforce the look of a radiant, even tone. **Vitamin B3**, a well-known brightening superpower, targets the look of uneven skin tone, and encapsulated resveratrol helps promote more even skin tone.**

Collagen starts to deplete as we age. Beginning in your 20s, you produce approximately 1% less collagen in the skin every year – year after year. By supporting skin's natural collagen, you're reinforcing one of its main building blocks that helps keep skin plump and resilient. An **age-defying peptide** supports skin's natural collagen and elastin,** and **encapsulated resveratrol** supports skin's natural collagen** to help improve the look of fine lines and wrinkles.
