

Forever Diamonds™

Embrace Every Moment™

Memories are made of moments that
shine forever like diamonds.

The joy of new beginnings, the laughter
shared, those times when your every
wish came true.

There are so many brilliant moments to
remember, and so many more to come.

Forever Diamonds™ is for the woman
who embraces life, and lets herself
sparkle within it.

Perfumer's inspiration

"I wanted to create a fragrance that would celebrate all the special moments in a woman's life. Forever Diamonds™ opens with a joyful and bright elegance, while its heart revolves around a bouquet of tuberose, a feminine floral loved around the world. A warm background finishes this fragrance with a breathtaking feeling. The woman who wears it will feel exquisitely radiant and captivating."
Rodrigo Flores-Roux, Perfumer and creator of Forever Diamonds™

At its heart the freshness of tuberose absolute is revealed as delicate hints of heliotrope and delicious apricot surprise and delight.

The memory lasts

Creamy vanilla bean and warm white amber celebrate your inner radiance and turn every day into a celebration.

HOW TO USE:

- Spray wherever fragrance is desired. Fragrance is sometimes applied to pulse points (wrists, behind ears, base of throat, crook of elbow, behind knees and inside ankles). The skin is actually warmer in these areas, which can help fragrance evolve and provide a better sensory experience.
