**Dr Andrew John Chadwick**  
**MBBCh, BA (Hons), MA (Oxon), MRCP, FFICM**

Dr Andrew Chadwick is a Consultant in Respiratory and Intensive Care Medicine at the John Radcliffe Hospital, Oxford. He is Clinical Lead for the Oxford Severe Asthma Service, overseeing the care of more than 700 complex asthma patients annually.

He has extensive expertise in the management of severe asthma, respiratory risk assessment in major surgery, and complex critical care, including major trauma with extensive experience of trauma in older patients, transplant, and sepsis. As Clinical Governance Lead for the Oxford Critical Care Unit, he has overseen risk, incident, and audit programmes and directed governance responses during the Covid-19 pandemic.

Dr Chadwick is experienced in providing CPR-compliant medico-legal reports in respiratory medicine and intensive care, with cases involving asthma, respiratory failure, trauma with expertise in geriatric trauma, peri-operative risk, sepsis, and critical illness. He has published widely in leading journals, collaborated on international trials, and presented nationally and internationally. He combines clinical leadership, academic contribution, and medico-legal experience to deliver clear, evidence-based expert witness reports.
