- File Format: Submit in both PDF and JPG formats

E-POSTER CONTENT GUIDELINES

Your e-poster should include the following key sections:

Title and Author Details

Clearly state the title of your study, followed by the names of all co-authors. The presenting author's name must be underlined to facilitate identification and communication by evaluators.

Background / Introduction

Provide a concise overview of the study, including its purpose and objectives.

Methodology

Describe the approach used in conducting the study, including the scope, design, and any limitations encountered.

Results

Present the study findings in a clear and structured manner. Where applicable, use visual aids such as graphs, charts, figures, or images to enhance clarity and engagement.

Conclusion

Summarize the key outcomes of the study and provide relevant recommendations based on your findings.

References

Include a list of all sources and publications cited in your study.

Acknowledgements

Recognize contributors to the study and provide contact details for those open to future collaboration.

LAYOUT AND FORMAT REQUIREMENTS

You may use the provided layout or adapt your own, as long as it adheres to the following specifications:

- Poster Dimensions: 1920 pixels (Height) x 1080 pixels (Width)
- Orientation: Portrait / Vertical

Important Note

Please refrain from including logos of commercial entities. All content must be strictly scientific in nature.

SETTING UP YOUR E-POSTER SLIDE IN POWERPOINT

To prepare your e-poster using PowerPoint with the correct dimensions (1920 x 1080 pixels, portrait format), follow these steps:

1. Open your PowerPoint presentation.
2. Go to the Design tab.
3. Click on Slide Size (located in the Customize group), then select Custom Slide Size.
4. In the pop-up dialog box:
 - Set the Width to 1080 px
 - Set the Height to 1920 px
5. Ensure the Orientation is set to **Portrait**
6. Click OK.

When prompted, choose either Maximize or Ensure Fit to adjust your content accordingly.

Note: Although PowerPoint may refer to slide size in inches or centimeters, these settings will maintain the correct 1920x1080 pixel ratio suitable for vertical display screens.
