4. User Responsibilities

4.1 Account Obligations

As a Client/User, you agree to:

- Provide accurate and complete information during registration
- Maintain the security of your account credentials
- Promptly update any changes to your account information
- Comply with all applicable laws and regulations

4.2 Deal Submission Warranties

By submitting a Deal to the Platform, you represent and warrant that:

- You have the legal right to market the property
- All information provided is accurate to the best of your knowledge
- You have not misrepresented material facts about the property
- You will honor any assignment fees or terms disclosed to Buyers

4.3 Buyer Data Responsibility

You are responsible for the accuracy of Buyer information in your account. You agree to obtain appropriate consent before adding Buyers to the Platform and to comply with all applicable privacy laws.

5. Platform Fee Policy

5.1 Network Fee Structure

DealDog charges a Platform Fee of **\$199 USD per party** ("Network Fee") under the following conditions:

The Network Fee applies when ALL of the following are true:

1. **Cross-Account Connection:** A Deal submitted by one Client/User (Deal Originator) is matched to a Buyer belonging to a different Client/User (Buyer Source) through the DealDog Network.
2. **Network-Facilitated:** The match was created through DealDog's matching system.

3. **Closed Transaction:** The matched transaction results in a completed closing, assignment, joint venture agreement, or transfer of equitable interest.

5.2 Fee Applies to BOTH Parties

IMPORTANT: When a Network Match results in a Closed Transaction, the \$199 Platform Fee is charged to **BOTH** Client/Users involved:

- **Deal Originator:** The Client/User who submitted the Deal pays \$199
- **Buyer Source:** The Client/User whose Buyer closed on the Deal pays \$199

Both parties benefit from the Network connection — the Deal Originator gains access to a buyer they didn't have, and the Buyer Source gains access to a deal they didn't have. Both parties pay for this value.

5.3 When No Fee Applies

No Platform Fee is charged when:

- The Deal and matched Buyer both belong to the same Client/User account
- The match does not result in a Closed Transaction
- The Buyer passes on the Deal or does not respond

5.4 Fee Payment & Reporting

The Platform Fee becomes due upon confirmation that a Network-Facilitated Deal has closed.

- Users agree to report all Deal closures within 7 calendar days of completion
- DealDog may issue automated reminders prior to enforcement actions
- The Platform Fee is non-negotiable and applies equally to all Users regardless of subscription tier, beta status, or account tenure

5.5 Verification Rights

DealDog reserves the right to independently verify Deal closure through reasonable means, including but not limited to communication records, User confirmations, Buyer confirmations, or Deal Submitter confirmations, for the purpose of enforcing Platform Fees and maintaining network integrity.

5.6 Circumvention Prohibited

Intentional circumvention of the Platform Fee through off-platform communication, failure to report closures, or other deceptive practices constitutes a material breach of these Terms and may result in:

- Immediate account suspension or termination
- Negative adjustment to Buyer Trust Index (BTI)
- Liability for unpaid fees plus collection costs

6. Buyer Trust Index (BTI) & Enforcement

6.1 BTI Overview

The Buyer Trust Index (BTI) is a proprietary scoring system that measures Buyer reliability based on response rates, engagement patterns, and transaction history. BTI scores influence matching priority and network access.

6.2 BTI Factors

BTI scores are calculated based on, but not limited to:

- Response rate to Deal teasers
- Time to respond
- Deal closure rate
- Communication quality
- Reported issues or disputes

6.3 Enforcement Actions

DealDog reserves the right to take enforcement actions including:

- Reducing match priority for low-BTI Buyers
- Restricting network access for chronic non-responders
- Suspending or terminating accounts for fraudulent behavior
- Reporting patterns to affected Users

7.3 AI Underwriting

DealDog uses artificial intelligence to analyze and score Deals. AI-generated estimates (including ROI, cash flow projections, and match scores) are for informational purposes only and do not constitute financial advice or guarantees of accuracy.
