School Curriculum:

A Time to Learn

The ATTL curriculum is a Bible-based full preschool curriculum that progresses students to be fully ready to succeed in kindergarten while building each student's confidence and character. At the core of our curriculum is Christ. Whether they are singing, dancing, playing, or working they will encounter Jesus throughout. Each student will learn that they are loved and cherished and that they have been created for a purpose!

Dance Curriculum:

The Acro curriculum is based on The Primary acro level of Acrobatic arts and tumbling basics. Each class consists of cardio, strengthening, flexibility, limbering, and tumbling.

The Creative Dance curriculum is based on the A Time To Dance curriculum. This is an age appropriate class where boys and girls learn the basics of dance, choreography, and expression through movement.

About The Program

A Time to Learn is located at A Time to Dance Studio. This facility features four fun and inviting classrooms. We are a fully equipped dance, performing, and fine arts studio! The building is designed to allow students to move easily throughout the day while engaging in hands-on activities which promote learning and discovery.

Our mission is to create a kind, nurturing, and loving environment where each student builds the confidence to know they are fearfully and wonderfully made! We believe the arts are an important part of your child's development and by providing a space for the child to learn, create, and move. We will provide a culture of growth for the body, mind, and soul!

We believe each student has God given worth! We believe by helping our students see their worth, value, and purpose at a young age, this foundation of truth will spur them on to grow into kind and loving young people!

We love that our program gives your child the opportunity to have their activities during the day, allowing your family more time to enjoy your evenings!
