What To Expect

WHAT TO EXPECT
when you experience the power of the patch.

The First Few Days
4,000 GENES BEGIN TO RESET
Within 24 hours 3,000-4,000 genes begin to reset to a younger healthier state.

Within 1 Week
YOUR NEW ARMY IS ACTIVATED
Your new army of stem activated and attracted first to your most critical issues that need repair and regeneration, which you may not feel, such as an internal organ or tissue, before helping something you do feel.

Within 2 Weeks
BRAIN BALANCING
A recent study has shown that after six weeks, the brain became more balanced as shown on QEEG brain mapping. These types of changes help calm an overactive brain leading to a decrease in multiple symptoms such as memory, depression, anxiety, sleep and more.
-2019 PSH-TEK Labs

Within 3 Months
COLLAGEN IS INCREASED
Your collagen is elevated initiating rapid repair of tissue in your body.

Within 6 Months
REDUCED HEART AGE
Cardiovascular System Changes Occur
The cardiovascular portion of the organ function study showed that after 6 weeks the cardiovascular systems acted eight weeks younger. So, if one does the math, for every day you wear the patch the cardiovascular system acts a day and a third younger.
-The Center for Biomedical Sciences

Within 12 Months
REGENERATION IS NOTICEABLE
You look and feel younger inside and out.

NOTES

GHK-Cu Peptide

GHK-Cu Copper Peptide: The Holy Grail of Healing

Dr. Loren Pickart discovered GHK and many of its biological effects with his original thesis is titled: "A TriPeptide From Human Serum" (June 1973)

GHK-Cu Copper Peptide activates Stem Cells for full body repair and regeneration!

GHK-Cu Copper Peptide is proven to ACTIVATE your stem cells, PRODUCE more stem cells, and RESET your stem cells to a younger healthier state.

Why is that important? Stem cells have the unique ability to change into any cell your body needs for repair and regeneration, just like when you were younger.

Our cells are constantly wearing out, forcing our body to work around the clock to make new and healthy cells. Your activated younger stem cells turn those old cells young and healthy again! In fact, within 24 hours, GHK-Cu Copper Peptide resets 4,000 genes to a younger, healthier state.

As we age, we produce less and less stem cells, slowing down our body's ability to repair itself. By age 35 we have lost 50% of our stem cell activity. By age 65 we have lost almost all our stem cell activity. When we activate our body with this younger pluripotent stem cells, they have the unique ability to turn into whatever cell the body needs for repair.

Your new stem cell army is now activated! Even if you don't immediately feel the effects, rest assured your army of stem cells is now hard at work repairing your most critical issues first before moving on to something you do feel.

STEM CELL ACTIVATION TECHNOLOGY

HISTORICAL BREAKTHROUGH THAT ACTIVATES EXISTING STEM CELLS

- As we age, our stem cells decline in their ability to function and heal our bodies
- LifeWave's X39 stem cell activation patches are clinically proven to provide the body with the health and vitality that many have not experienced in years
- The secret: An exclusive, patented and proven phototherapy non-transdermal technology that is safe, non-invasive and easy to use
- LifeWave's X39 is the result of over 80 clinical studies and 20 years of research
- When this wearable technology is activated to the body, the X39 phototherapy patches are applied to your body's heat
- X39 reflects specific wavelengths of light back toward the body, signaling the body to elevate the GHK-Cu copper peptide
- GHK-Cu has been clinically proven to activate your body's own stem cells
- LifeWave is the world's first company using the patented approach to activate stem cells

PATENTED WEARABLE LIGHT TECHNOLOGY

THE POWER OF *the patch!*

The patented X39 patch is a form of wearable light technology.

The X39 patch is made from organic nanocrystals - a combination of amino acids, water, stabilized oxygen, sugars and salts that form a crystal lattice structure.

When X39 is placed on your body, the patch reflects your own body's light back into your tissues. This process is called photobiomodulation or light making change in your body. Light works fast to support the natural flow of energy, activating new, younger healthy cells responsible for repair and regeneration in a non-transdermal and non-invasive way.

Our cells are constantly wearing out, forcing our body to work around the clock to make new and healthy cells. The X39 patch activates your new healthy army of cells. Even if you don't immediately feel the effects, rest assured your new cellular army is hard at work repairing your most critical issues first before moving on to something that you may feel.

(S7) **ABSTRACT**
 Embodiments enables a wearable phototherapy apparatus that produces beneficial effects to a human body such as activation of stem cells, improvement in strength, improvement in stamina, pain relief via a non-transdermal container. May include an optional transdermal container that releases or increases copper peptide GHK-Cu in a subject's body. The non-transdermal apparatus reflects or emits specific wavelengths of light to elevate levels of the copper peptide GHK-Cu in the body.

Some people experience results within 1 - 7 days. Most experience results within 30 days. Know that within 24 hours the X39 patch starts restoring 4,000 genes to a younger, healthier state.

Wear the X39 patch 12 hours ON to activate and repair and 12 hours OFF. Apply a new patch daily. For deep healing, wear X39 patches 1 month for every decade you are old.
