

## The Problem

Everyone has heard stories about the difficulty of family Probate settlement when they are not prepared... the arguments, the disappointment, the difficult process, and the result ➡ significant family disruption! Do you want to subject your children and grandchildren to **Probate**? Of course not! There is a solution!

## The Facts

What is the Difference between a Will and a Trust? Answer: About **\$50,000** cost for most families!

A Will by itself **guarantees** Probate! A process that costs money, delays Estate settlement, and compels advertising and potential family and public disputes.

Is there a remedy? Yes! Establish a **Digital Revocable Living Trust**

What are my Options to create a Trust?

- Do nothing or try to do it yourself and risk Probate
- Use a local attorney to create a costly, static 'book' Trust
- Create a modern, legally editable, digital **eStatePlan™**

## Your eStatePlan™ will include the following documents

- |                               |                                   |
|-------------------------------|-----------------------------------|
| ✓ Revocable Living Trust      | ✓ Master Signatory Guarantor      |
