

Crown Legacy Group Corp — LNG Processing Plant Construction Capability

Executive Summary

Crown Legacy Group Corp is a fully licensed and bonded general contracting and engineering firm with over 80 years of combined leadership experience in the commercial and industrial construction sector. With a \$40 million bonding capacity, multi-state engineering, architectural, construction licenses, a comprehensive DBE, SBA 8(a), and Veteran certifications, the firm delivers turnkey LNG Processing Plant construction - from site development and structural works to mechanical, electrical, and commissioning completion. Crown Legacy Group Corp stands out as a trusted partner for large-scale energy infrastructure projects, providing technical depth, project management excellence, an unlimited amount of experienced onsite and offsite personnel, and financial capacity to execute complex, high-value federal and industrial builds.

Executive Leadership

Marcus Thomas — Chief Executive Officer (CEO) — Strategic oversight, executive direction, and program governance.

James Moore — Chief Operations Officer (COO) — Operations management, scheduling, safety, and compliance execution.

Merrel Porche, Jr — Executive Engineering Officer (EEO) — Field supervision, subcontractor coordination, and site logistics.

Fernando Richard — Chief Financial Officer (CFO) — Financial strategy, risk management, procurement, and bonding administration.

Insurance & Bonding

- General Liability & Workers' Compensation: Fully insured per state and federal license requirements.
- Bonding Capacity: \$40 million aggregate bonding capacity.

Professional Licenses

- Louisiana Professional Engineering & Land Surveying License - #3226
- Louisiana Architectural Certificate of Authority - #AF0720
- Louisiana Professional Engineering Firm License - #EF6778
- Louisiana Building Construction License - #54488
- Louisiana Commercial License Certificate - #CL.79245

- Louisiana Residential License Certificate – #RL.890355
- Georgia Residential & General Contractors License – #GCQA006995

Certifications

- Hudson Initiative
- SEBD (Small and Emerging Business Development)
- Veteran Initiative
- DBE – Louisiana, Texas, Mississippi
- SBA 8(a)
- HUBZone

Core Competencies for LNG Construction

Civil & Site Preparation

- Excavation, grading, embankment, and subgrade compaction
- Underground utilities (water, sewer, storm, gas)
- Temporary and permanent erosion control systems
- Roadway and heavy-haul access development

Structural & Concrete Works

- Foundation systems, slabs, and structural concrete elements
- Bridge, barrier, and containment wall construction
- Concrete paving, curbing, and approach slabs
- Structural steel and sheet pile installation

Mechanical & Process Systems

- Piping, flowable fill, and process foundation supports
- Equipment setting, modular assembly, mechanical integration
- Pressure containment and weatherization systems
- Material handling and mechanical utility tie-ins

Electrical & Instrumentation

- Power distribution systems, grounding, and lighting
- Control systems integration and commissioning support
- Protective coatings and permanent signage
- Instrumentation integration for LNG process controls

Infrastructure & Support Services

- Highway, street, and bridge construction (DOTD-certified scopes)
- Site mobilization, trucking, and logistics
- Traffic maintenance and flow management
- Facilities maintenance and janitorial services (post-construction)

DOTD & Specialty Trade Highlights (Selected)

- NC236220 – Commercial & Institutional Building Construction
- NC237110 – Water & Sewer Lines and Related Structures
- NC237310 – Highway, Street & Bridge Construction
- NC238210 – Electrical Contractor (Electrical Systems)
- NC238910 – Site Preparation (Clearing, Grubbing, Excavation)
- NC238990 – Specialty Trade Contractors (Saw cutting, Barriers, Weatherization, etc.)
