

Our Project Expert Directory

Our personal project expert directory - The right architect will manage both the experts and the process

Understanding what to do is one thing, knowing who are the key experts in this field to assist is another.

We have built up relationships with a range of professionals that understand the complexities of multi deck carpark design and construction. Not only do they do a great job, but they provide excellent specialised advice early to help guide projects to successful outcomes.

If you have any specific questions about your project, please reach out. If we cannot answer your question, we will be able to draw on someone who can.

Paul Katz FRAIA (Fellow of the Australian Institute of Architects), BPD, B.Arch. (Hons), ARBV (Architects Registration Board of Vic),
Design Director

Tom Turner RAIA, BPD, B.Arch. (Hons), ARBV (Architects Registration Board of Vic),
Technical Director
