

# NONPROFIT DENTAL CARE FOR SENIORS

## WE ' RE COMING TO YOUR COMMUNITY!

### FREE On-Site Dental Pre-Check for Seniors by Mila K.

Delivered by Our Non-Profit Dental Outreach Team, We are proud to bring our non-profit dental outreach program directly to your community, offering compassionate, professional care where it's needed most. Our licensed dental professionals will be on-site to provide free, full-mouth pre-dental checkups designed specifically to serve seniors and underserved communities. These non-invasive exams are tailored to detect a range of common yet often overlooked oral health conditions, including cavities, gum disease, failed or problematic dental implants, and general oral hygiene issues that may affect both comfort and long-term health. By using safe, chemical-free tools and avoiding sharp instruments, we ensure a gentle, stress-free experience for all participants. Our mission is not only to screen but to educate each individual about their oral health, clarify their treatment options, and, when needed, connect them to our providers with our surgical centers for more advanced care. Whether it's your first dental check in years or a simple follow-up, this visit could be the key to a healthier, more confident smile.

### Learn about to your Oral Health Options from.

Many seniors are unaware that they may qualify for valuable dental treatment benefits through Medicare, and our team is here to help clarify exactly what's available and how to access it. If additional care is needed beyond the initial screening, you're in good hands – Mila K partners with top-tier dental surgical centers across the Bay Area, staffed with highly qualified dentists and specialists ready to support your ongoing dental needs. From extractions and implants to dentures and full-mouth reconstruction, we help connect you to trusted providers, often with coverage through Medicare or insurance. Our mission is to make sure you leave not only with a better understanding of your oral health, but also with a clear, affordable path toward the care you deserve.
