Outside Play

“Just living is not enough...one must have sunshine, freedom, and a little flower.” -Hans Christian Andersen

The day we have all been waiting for, and the day each child has been insisting was EVERYDAY, this past month, is finally here! **Our playground is open!** Now you may be wondering: “What’s so special about an ordinary, regular playground?” Well! It is simple; your children!

PETTING ZOO

The pure joy we see in their faces every time it is “time to go outside” is miraculous. It’s beautiful the way they light up and are a little kinder and more patient with each other. It’s true they don’t become perfect angels; but they come a little closer (probably has something to do with endorphins). Physical learning experiences are key to child development. We provide swings, toys, and athletic balls/equipment, so they can experience a wide range of outside activities, to access and develop their “gross motor skills”. Which is just a fancy term for larger movements with the muscles in the body; and though it is simple, it is very important! Energy is expelled and your children benefit greatly. We know this playground will help all our children here be happier and healthier. We thank you for your patience with this transition process and appreciate all you do as wonderful parents!!

Warmly,
