OUR STORY

Thrive Edge Publishing was founded by Tiffani Teachey, a senior mechanical engineer and STEM advocate, with a passion for inspiring young minds. Tiffani's expertise in engineering and her dedication to promoting STEM education led her to create a collection of captivating children's books. Her renowned works, including "What Can I Be? STEM Careers from A to Z" and the "STEM Crew Kids Adventures" series, empower children and ignite their curiosity about science and technology.

With a Bachelor of Science in Mechanical Engineering and a Master of Science in Engineering Management from The University of North Carolina at Charlotte, Tiffani brings a wealth of knowledge to her writing. She is currently pursuing a Ph.D. in Leadership Studies, further expanding her expertise. Through Thrive Edge Publishing, Tiffani strives to inspire young readers to pursue careers in STEM, encouraging them to explore their imaginations and develop critical thinking skills.

Thrive Edge Publishing crafts meticulously designed books that engage children of all ages. Tiffani's captivating storytelling, complemented by vibrant illustrations, sparks curiosity and empathy in young readers. By sharing the stories of trailblazing individuals in STEM fields, Tiffani aims to empower underrepresented industry and business leaders to inspire the next generation. Through her work and mentoring efforts, Tiffani Teachey is making a profound impact on the lives of children, encouraging them to unlock their potential and shape a brighter future.

WHAT OUR READERS SAY

Bevin E.

Review of The STEM Crew Kids Adventures:
Building a Balloon-Powered Car

This book is a fun and exciting, experience based, journey that helps children find their love for STEM topics. You get to collaborate in building a balloon powered car and teach the kids in your life some lessons in the 'STEM' way of looking at the world.

Tiffany B.

Review of What Can I Be?
STEM Careers from A to Z

When we first received the book "What Can I Be? STEM Careers from A to Z" I read it to my daughters (then only 5 and 3 years old) and now my oldest can read it to me. With Aryn expressing a joy in math and technology, it's important to expose our children especially young women to STEM. Congratulations Tiffani Teachey as you forge your book and knowledge with the world!!!! Thank you for being a voice and making such a huge impact!

Margo T.

Review of What Can I Be? STEM Careers from
A to Z: Coloring & Activity Book

My son loved the games and puzzles....which helped keep his attention as an older child (he's 7)...and you can't go wrong with a coloring book great for road trips.
