Bondgate IT

MDM - What to Expect

STEP 01

What is MDM

Is a comprehensive solution designed to securely manage work devices within your organisation. We will be using Microsoft InTune for your MDM solution.

STEP 02

Why MDM

MDM allows for remote enforcement of IT policies, configuration management, and secure data deletion from lost or stolen devices. This does not allow us to see personal information on your devices.

STEP 03

What this means

By enrolling on MDM, you can have peace of mind knowing that your work devices and data are equipped with advanced security measures, giving you peace of mind.

STEP 04

What do we need you to do

We need you to enroll your devices into Microsoft InTune - follow the below links.

Enroll your iOS device in Microsoft Intune

Enroll your Android device in Microsoft Intune

STEP 05

What if I get stuck?

Should you have any issues then please contact the Bondgate IT Support team on 01325 369 950.
