### BUSINESS SUMMARY

Valor Mission Critical operates a 50,000 square foot facility specializing in metal fabrication and precision material processing. Focusing on high-quality production for critical applications, Valor Mission Critical provides comprehensive manufacturing solutions, adhering to rigorous standards to meet complex project requirements. With a strong emphasis on reliability and precision, the company caters to diverse industries, ensuring robust support for mission-critical operations. For inquiries, customers can visit [www.valormissioncritical.com](http://www.valormissioncritical.com) or email us at [info@valormissioncritical.com](mailto:info@valormissioncritical.com).

### CAPABILITIES

- Valor Mission Critical’s capabilities are highlighted by our state-of-the-art laser cutting and metal forming technology:
  - Our two **Bodor 12kW P4 Laser** cutters
    - Achieve thicknesses:
      - Up to 1.5 inches in stainless steel
      - 1.16 inches in carbon steel
      - 1 inch in aluminum
    - Cutting speeds reach 8,000 inches per minute (IPM)
  - Two **Accurpress 12-foot, 175-ton press brakes**
    - Maximum bending length of 144 inches
    - Pressing capacity of 175 tons
    - Handle metals up to 0.5 inches thick with consistent accuracy
  - Combined capabilities allow Valor Mission Critical to:
    - Meet rigorous project requirements
    - Deliver precision, speed, and dependability
    - Address a broad range of welding, fabrication, assembly, integration, and bending and forming needs

### FACILITIES AND EQUIPMENT

- **50,000 square-foot** fully equipped with laser cutting and forming equipment, along with a range of machining, welding, and finishing tools to support a seamless production process
- **2 Bodor 12kW P4 Laser** cutters provide high-speed, precise cutting across a variety of metals
- **2 Accurpress 12-foot, 175-ton press brakes** for reliable, accurate metal forming

### DIFFERENTIATORS

- Service-Disabled Veteran owned business
- Strong commitment to precision, efficiency, and customer-focused solutions
- Every member of our team is an expert, bringing deep industry knowledge and craftsmanship to every project
- Our state-of-the-art equipment and spacious facility allows us to provide unmatched accuracy and speed, ensuring short lead times without sacrificing quality
- Our dedication to fostering transparent communication and collaboration ensures our clients remain informed and involved throughout the fabrication process
