hey, I'm heather!

We are going to journey together to identify and release the bound emotions & trauma that has been holding you back!

But you may want to know who I am and why I can help you with this...

If you are currently reading this I'm guessing you are ready for something to be different in your life.

You may be wondering why you keep doing the same things over and over that you don't want to do.

You may be thinking "Something HAS to change in my life. It HAS to be me and it HAS to be now!"

I get it. I've been there.

As someone who has struggled emotionally much of my life doing the same things over and over and that I didn't want to do and finally figuring out how to STOP doing that, I stand for creating safe places to help women identify and release what is holding them back so that they can be fully connected to their dreams and desires.

With a master's in counseling and more certifications to list, I love to combine all of my tools to help you Reclaim Within so that you can love the life you are living.

It's so much closer than you think.

Once you Reclaim Within, life expands.

Are you ready?

journey OUTLINE

Clearing Your Heart Wall/Finding Your Patterns (Month 1)

Heart-Wall~When our heart is repeatedly attacked or hurt our subconscious mind forms a kind of energy wall to protect it from more heartache.

The challenge is, if we walk around with this wall when we are not being attacked it blocks us from things like love, joy, connection, success, and self-confidence.

Releasing the Heart Wall is the first thing we do so that you can connect back to your HEART and create space within to heal.

Finding Your Patterns ~ I'll give you a tool to map your emotional triggers and process stressful events and difficult emotions when they arise.

Emotional Mapping (Month 2)

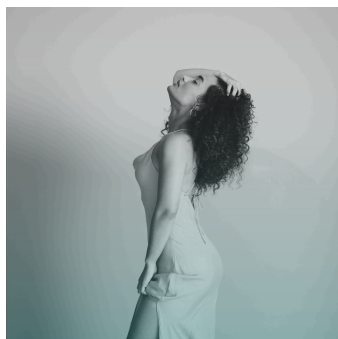

Now that we've released your Heart Wall and know your triggers, through a unique, gentle, yet POWERFUL process we will pinpoint and bring awareness and understanding around the root cause and origin of the emotional triggers that have been holding you back.

Empowered Belief Coding (Months 3-4)

With the awareness of the root causes identified, it's time to release the energetic charge of the memory in your body so that you can fully Reclaim Within.

Empowered Belief Coding is my POTENT signature process that combines modalities such as Hypnotherapy, Energy Clearing, Parts & Inner Child Work to release the energetic charge of emotional triggers so that you can Reclaim Within ~ finally!

Heather is a magician, truly.

In the almost 2 years that I've been working with her, I am healed of infertility, depression, anxiety, OCD and so many other ailments. She is that support system I always fall back on.

It's not so much that she heals me, it's more that working with her opens up opportunities for healing and this is where the magic happens.

I am truly grateful for all the leaps I have made in my life thanks to our work together and know that I am safe now because I have the best by my side.

Thank you so much Heather!!! I was feeling really sad, like I wanted to cry. I don't know how this thing work, but it does. My life has changed for the best since you worked on my heart wall, so I want to thank you so much for introducing me to this type of work!! 🥹

I'm noticing how I'm feeling different--a week ago I was feeling unlovable or be in a position to be loved by anyone.

Now I'm really taking in the emotion of taking in the openness of being vulnerable to what the universe has for me for someone like me, that's a really different feeling and I'm leaning into it!

Hello Heather
I hope you're doing well
FB reminder today I had share something we had discussed that week, it was in 2016 🥰 when you were coaching me, it's been six years
WOW 🥰
I've wanted to write and tell that I'm doing super well
Got into business with my brother 3 years ago and it took off, very successful
Got married, had three children 🥰🥰
I just want to say you are the best and helped me tremendously and I still practice what you taught me
Thank you 💖

Hi Heather, I wanted to share with you. I had an experience come up recently where I normally would have felt shame in the situation even if it wasn't warranted. And you know what, I didn't! I was able to move through that situation for what it was and no longer be weighed down but such a dense energy from the past. I know our session where you helped me release this emotion contributed to that shift. Thank you 🙏💖

Yes!!! So much positivity has been coming my way. It's just amazing. Very grateful I connected with you.

With each step I felt lighter and freer. I love feeling me as my desire I feel a closeness and a knowing of her inside me becoming me!

"From where I was to now is just amazing.

When someone is stuck and know somethings is wrong but don't know how what to do then someone comes along and has you try something different makes all the difference...

I have you to thank for that."
