PERSONALITY  
QUIZ

## WHAT'S YOUR SEASONAL PERSONALITY?

### Discover your true authentic style

I've devised this fun quiz to help you continue your journey of self enquiry.

Colour psychology is something I primarily use to produce gorgeous schemes but I also use it to help me get an insight into my clients personal tastes. Of course I don't ask them these questions directly- that would be weird! But I can ask you to ask them for yourself now that you are privy to this extraordinary framework. You can do this for yourself, but it's great fun to help get an insight into your partners preferences too.

Something striking in an unusual setting, perhaps oversized. Rubies, black pearls, jet and of course diamonds!
