

SPEED BREAKERS/SPEED HUMPS

BULWARK Speed Humps offer the best solutions for slowing down traffic safely. Installing our speed humps will reduce the risk of accidents on your site. They are designed to enforce safe site speed limits by slowing down all vehicles.

They are manufactured in **Black and Yellow** colours with **Green and Red reflectors** to help drivers get sufficient warning and to ensure that the ramps are seen clearly

Our Speed Humps have deep ribbed surfaces for extra grip which are supplied with suitable holes that can be easily fixed in asphalt, concrete or block surfaces.

Sizes Available in mm:

Code	Width	Length	Height	Speed Limit (KM/H)
SH40050050	400	500	50	15-20
