## KELLY'S KEYNOTES:

### **The Drive-Thru Method of Manifesting:**

Learn the easy 6-step formula to reach any goal in life! It's the same 6 steps as going through a drive-thru for lunch, so it's super easy to understand and implement!

### **The Transformational Power of a Power Statement:**

Experience the raw power of a memorized declaration you speak out loud to yourself and the world stating who you are, why you are here, and who you are here to serve!

### **Facing the Fear of Success:**

What if you realized that you weren't actually scared of success, in fact you are intimately familiar and comfortable with it. What you actually fear at the deepest level is wild, runaway success and that in the long run, will result in you being completely alone.
