Selecting the Service right for you

Private Sessions

Suitable for all cases. These the main session that we offer after your onboarding process. These sessions are designed for 1 on 1 training time with your family and one of our Trainers. We'll work on 2-3 protocols/exercises from your custom plan developed after your Consultation session(s).

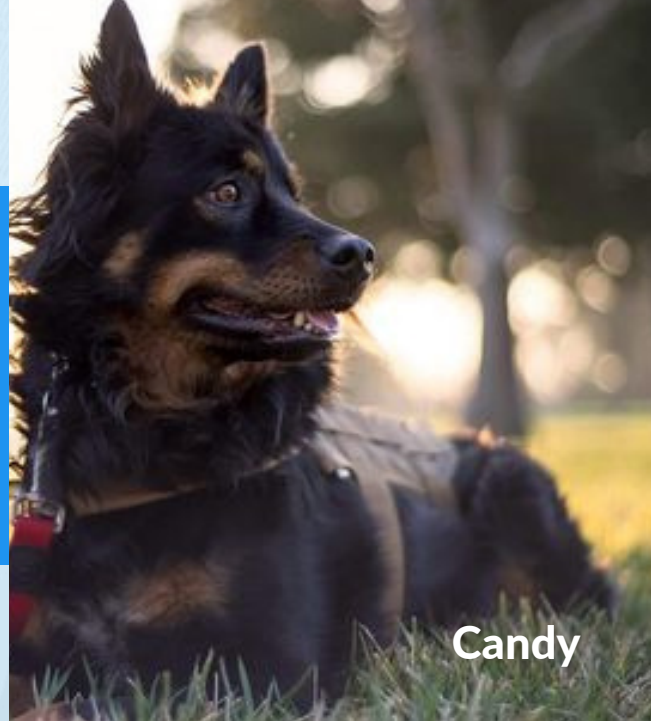

- **Private sessions are held in our Animal Behavior Center unless virtual or in home accommodations are needed.**
- **For Private Sessions, Clients must be present for the sessions.**
- Sessions are not locked in as one "type" or another, as the needs of the dog and owners may change as training progresses on the case.
- All of the following services also include taxes and fees, travel time **up to 15 minutes to and from the session location**, limited email support and access to our online community in initial cost.

Scheduling Sessions

Once Private Sessions are purchased, our team will reach out to you to schedule 1 to 2 of those session at a time. We know that life happens, so we try to stay flexible with our scheduling to help accommodate scheduling.

- **We'll send over a calendar link for you to choose your first session based our availability.**
- Once you have selected a time,, we'll review and send out a confirmation via email.
 - **If your session is planned to be held at you home location and is over a 15 minute drive, a travel fee will be sent out wit the confirmation email. The session isn't fully confirmed until the Travel fee is paid.**
- **Sessions are valid for 6 months from when purchased. After 6 months, your sessions are no longer valid.**
- **Sessions are not reschedulable. (See Rescheduling Policy)**
 - We do accommodate emergency/unexpected situations and will offer accommodations on a case by case basis.
 - **Accommodations may include a \$60 rescheduling fee.**

DAY TRAINING SERVICES

Day Training is an intensive support service designed to get a trainer working with you and your dog up to 4 times a week. This is a great service for complex cases or there are scheduling needs that would benefit from frequent visits, in person or virtually.

OVERVIEW

For many cases, a combination of schedule, safety and the support of frequent sessions can be helpful to give you the best chance for meeting your goals. This service combines multiple sessions a week with our experienced trainers skill sets to 'jumpstart' the training process.

This service is for families that would like to have a Trainer stop by the house during the day to work with your dog towards your goals or you're working with a protocol that includes nuanced instruction or support.

These plans can take at least 3-5 days to get put together before you start training. This could be longer depending on team's caseload. Start dates for Day Training plans may be scheduled up to 4 weeks in advance based on trainer availability.

Standard Day Training: A Trainer will work with you 4 days a week for 4 weeks. **The trainer will work with your dog in your home 1 on 1 (3) days a week and 1 session with you and your dog to transition the skills worked on within the week.** This service is great for some cases, especially dogs who are struggling with;

- Barking, lunging or displaying various leash reactivity type behaviors
- Dogs with stranger danger
- Obedience type cases
- Variety of other cases!

Virtual Day Training: (V)

Similar to the In Person Day Training Services, our Virtual variation is great for cases that need intensive support and/or a jumpstart towards their goals. **You and the Trainer will meet 4 times a week, 3 times for 30 minutes and once a week for an hour to onboard new skills for the next week.** We see this option especially valuable for, but not limited to, cases where we see:

- Separation Anxiety, Cooperative Care, Owner Directed Conflict.
- Out of area clients
- Dogs who have issues with strangers (but there are more pressing training needs)
- Cases that benefit from working with the dog in a more natural life setting.
- **Client must be available for each session**

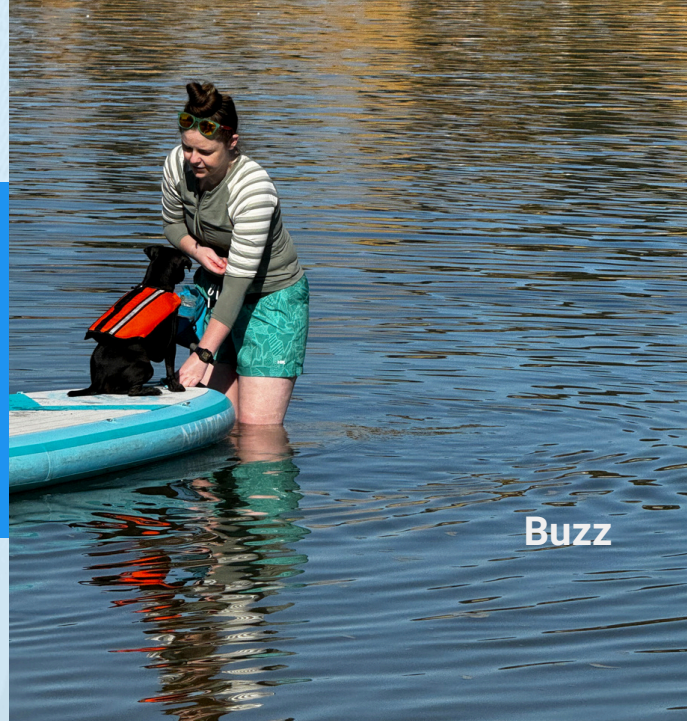

Mini Day Training: (M)

A budget friendly option for clients who want the benefits and structure of a Day Training but may not be able to commit 4 days a week. **A trainer will be over 2 days a week to work with you and your pets.** It can also be perfect for clients transitioning away from the more intense support of other Day training services.

- Can be In Person, Virtual or Hybrid.
- **Client must be available for each session**

Day Training services are scheduled out for the whole 4 weeks in collaboration with the client. Scheduling will be based off of availability. Clients have the ability to add on weeks to the day training plan or additional services, we only schedule them out one month at a time.

***Not all cases are appropriate for Day Training, your trainer can help you decide if this is appropriate for your case.**

Before you start a Day Training:
