

3rd Grade Summer Reading

Students read the following book and complete one project. Projects are due on the first day of school and will be presented throughout the first week. Students do not need to bring the book to school.

One Day in the Woods by Jean Craighead George

Choose one project:

- Make a movie poster. Pretend the book is going to be made into a movie. Design a poster showing a scene that would make people want to see the movie. Make sure your poster has a title, a movie rating (G, PG) and a cast of characters (who will play Rebecca?)
- Make a diorama of your favorite scene from the book. Include a brief description of the scene and what chapter it happened in on an index card attached to the back of your box.
- Take a journey into the woods like Rebecca. Create a journal recording everything you see and experience in the woods. What do you see, smell, hear and feel?
- Retell the book in chronological order. You may make a comic strip, poster, or scrapbook depicting the important events in the story.
- Write a letter to the author. Tell her about your favorite part of the book and what you would change.
