

Who Funds Your Paycheck?

As a DCS/DHHS employee, your paycheck comes from Federal Incentive Payments awarded to each state based on specific performance metrics under Social Security Act Title IV-D Section 458:

Paternity establishment rate
Child support order enforcement
Current support payment compliance
Arrearage collection performance
Cost-effectiveness in enforcement
Family courts determine how much time a child spends with each parent, directly influencing child support payments. Less parenting time means higher child support payments—boosting federal incentives received by the state. This system financially benefits from limiting a child's relationship with a loving parent.

It's Time to Put Kids First.
