CALLISTA AT A GLANCE

Callista is a partner-managed IT company headquartered in Switzerland that specializes in providing experts, dynamic teams and managed capacity solutions for consulting, engineering and operational services. We combine the proximity and quality of a Swiss partner with the scalability of our nearshore center in Serbia.

This model offers maximum flexibility – cost-effective, reliable and future-proof. With a strong network that extends from Switzerland to Germany and the Balkan region, we strike the perfect balance between local presence and international efficiency.

"Callista is our trusted partner guiding and enabling us towards a future proof platform."

Jannik Mersch
Master Data Steward

ABOUT ROSENXT

Rosenxt is a forward-thinking technology group originated as spin-off of the Rosen Group providing high-tech solutions for most challenging environments, including subsea, industrial, renewables and the integrity of the water and energy supply.

IMPACT DELIVERED

Rosenxt asked Callista to build a Data Platform. Callista experts architected, engineered and established a solution based on Databricks. The platform was deployed using Infrastructure-as-Code in parallel to the build up of the new system landscape.

BENEFITS

Future Proof

The established platform solves today's Management reporting & analytics requirements while preparing the capabilities to support future data & AI solutions.

Fast, Cost-effective and Pragmatic

A team of experts from Switzerland and Serbia was deployed in a very short time and could immediately deliver the desired outcomes.

New Team Enabled

The experts of Callista enabled the new colleagues to make immediate use the established data intelligence platform.
