

One Person **BIG DIFFERENCE**

CONNECTING GUIDE

IDEAS

NETWORKING GROUPS:

Joining local networking groups is a great way to build relationships and expand your own network. i.e. BNI, EWomens

ASK A FRIEND TO COFFEE:

Nothing beats connecting with someone 1 on 1.

TAKE A CLASS FOR A HOBBY:

This is a great place to find people that like the same things you do!

JOIN YOUR LOCAL CHAMBER:

What better way to meet more people in your community than to be a part of your chamber of commerce.

VOLUNTEER:

Find local events that you can be a part of by volunteering.

We all need a database, this is your key to sharing. Finding ways to add to your database can happen in so many fun ways.

When meeting new people, the most important skill set you can have is to be curious and be the best listener they have ever met! Be the one asking the questions and digging deeper. Trust is created when you work to build a real connection with someone.

The opportunity to bring up LifeVantage may not happen the first time you connect. It may take a few conversations. Trust the process, have patience, and be excited, it's about them!

**THE GOAL IS TO ALWAYS BE
ADDING TO YOUR DATABASE:**

Don't go out to do LifeVantage, go out and live your life and let LifeVantage happen!

**DON'T FORGET TO
ASK FOR REFERRALS!**
