

TEAMWORK SUMMIT

ON-DEMAND TEAMWORK TRAINING FOR LOCAL GOVERNMENTS

WANT A HIGHER-PERFORMING TEAM?

LESS DRAMA?

Better communication and team culture?

**Do your leaders need to grow
in ability to lead their teams?**

**Want engaged teams
that work better
together?**

LeaderGov's SUMMIT TRAINING PROGRAM

delivers highly affordable on-demand video courses directly to your employees mobile devices, customized for local government, designed to build stronger teams, leaders, and collaborative environments.

These bite-sized courses can be used by anyone—whether an employee, team leader, or the entire team.

A POWERFUL TEAMWORK AND LEADERSHIP LIBRARY OF COURSES YOU CAN COMPLETE IN 30 MINUTES!

Master Emotional Intelligence

Emotional situations on teams can slow progress and create a negative culture. In this course you will learn how to manage your own emotions to reduce stress and how to work with others that are in tension or emotion filled situations.

Handle Stress Effectively

Stress can negatively impact a team if not handled properly. In this workshop you will learn how to reduce on-the-job stress and how to see stress from a different perspective. As a leader you'll learn your role in helping others reduce the stress in their lives.

Personality and Teamwork

Our personalities can add to the team's success or can stifle team success. In this course, each person will complete a DISC assessment and using their 18-page DISC personality report, will discover how their personality can benefit or hurt the team. Learners will get a score of their personality in 4 areas including dominance, influence, steadiness and compliance. They will then learn to modify or adjust their style to better interact with team members.

Build Team Trust

Trust is the foundation of cohesive and successful teams. If there is no trust, success will be a struggle. In this workshop, you will learn ways to grow team trust as a leader and as a team. You'll discover a set of trust best practices and exercises to help your team connect and work better together.

Become a True Team Player

We all want everyone on our team to act as team players. In this powerful workshop, you'll learn the six essentials to being productive team player, such as being an initiator, being relational and being a peacemaker. You'll learn how to support each person on your team as they grow in each area.

Sharpen Interpersonal Communication

Communication is the golden thread in virtually everything teams do. In this course, you and your team will learn how to communicate effectively and how to listen for understanding. This course includes best practices for quality communication such as having clarity, making eye contact, body language and more.

Self-Care Essentials

We bring our whole selves to work and if we don't take care of ourselves, we'll likely disrupt the entire team. Lack of self-care effects the quality of the team and its output significantly. In this workshop we discuss the 8 areas of self-care, provide examples of how to grow in each area and ask learners to make a plan to grow in their own self-care.

Navigate and Resolve Conflict

Conflict rarely improves when ignored! Every team has conflict and in this course we teach you how to address the conflict including understanding the issue, getting to the core of the issue and then seeking commitment from the persons involved to act differently going forward.

New training courses launched each month on topics including:

- How to Function Successfully on Multi-Generational Teams
- How to Foster an Engaged Team
- The Value of Ethics and Integrity to a Leader and Team
- How to Make Decisions with Your Team
- Keys to Set High-Impact Goals and Get Team Buy-in
- The Importance of Personal Growth
- How to Delegate to Help Others Grow
- The Keys to Holding Others and the Team Accountable
- Becoming an Ambassador of Change
- How to Give and Receive Feedback
- How to Collaborate for the Best Result

Seamless Integration into Your Current Team Meetings

Topics can be used during your team meetings to elevate your team's success. Individual learners watch the course on their mobile device or computer and then the team participates in a group discussion of the topic for maximum application.

Perfect for any Local Government Department: Public Works, Public Safety, Community Development, Water and Wastewater, County Commissions, and beyond.
