Common Business Needs & AI Solutions

1. Customer Communication

Business Need:

Responding quickly and professionally to customer inquiries

AI Solution:

Tool: ChatGPT or Claude

Example Implementation:

1. Create templates for common customer scenarios:
   - Product inquiries
   - Shipping questions
   - Complaint handling
   - Return requests
2. **Sample Prompt:**

```
Unset
Create a response to a customer who is asking about our shipping
times. Include:
- Standard shipping (3-5 business days)
- Express shipping (1-2 business days, $15 extra)
- International shipping (7-14 business days)
- Our tracking system information
The tone should be helpful and friendly. End with an offer to
assist with any other questions.
```

Before AI: Manually writing responses taking 10-15 minutes each **After AI:** Generate customizable templates in 2 minutes, personalize in 1 minute

---

2. Content Marketing

Business Need:

Maintaining consistent social media presence

AI Solution:

Tools: ChatGPT/Claude + Ideogram

Example Implementation:

1. Generate a month's worth of posts in one sitting
2. Create matching visuals for each post

Sample Prompt for Content:

```
Unset
Create 12 LinkedIn posts for a local real estate agency. Each
post should:
- Highlight a different aspect of home buying or selling
- Include a tip that demonstrates our expertise
- End with a clear call to action
- Be between 2-3 sentences
- Include 2-3 relevant hashtags
The tone should be professional but warm. Our target audience is
first-time home buyers and empty nesters looking to downsize.
```

Sample Prompt for Images:

```
Unset
Create a professional, modern image for a real estate social
media post about home staging tips. The image should show a
bright, minimalist living room with tasteful decor. Use soft
natural lighting and a warm color palette. The style should be
photorealistic and high-quality, suitable for a luxury real
estate brand.
```

Before AI: 5-6 hours to plan, write, and create visuals for monthly content **After AI:** 1-2 hours to generate and refine a month of content

3. Sales Presentations

Business Need:

Creating compelling presentations for potential clients

AI Solution:

Tool: Gamma

Example Implementation:

1. Input your key selling points and target audience
2. Generate a professional presentation with minimal formatting needed

Sample Process:

1. Create a new presentation in Gamma
2. Type in the prompt: "Create a sales presentation for our accounting services targeting small business owners. Include slides on tax preparation, bookkeeping, payroll services, and business advisory. Use professional visuals and include key statistics about how we've helped businesses save on taxes."
3. Review generated presentation
4. Edit and customize specific slides

Before AI: 3-4 hours to create a presentation from scratch **After AI:** 30-45 minutes to generate and refine

---

4. Professional Imagery

Business Need:

Updated team headshots and marketing visuals

AI Solution:

Tools: Secta (headshots) and Ideogram (marketing visuals)

Example Implementation:

1. Upload a few smartphone photos to Secta
2. Generate professional-looking headshots for website and LinkedIn

3. Create consistent visual elements for marketing materials

For Headshots (Secta): Upload several casual photos and select professional business style

For Marketing Materials (Ideogram):

```
Unset
Create a series of 5 coordinating business images that represent
different aspects of consulting services: strategy development,
team collaboration, data analysis, implementation, and results
measurement. The images should have a consistent blue and grey
color scheme, professional modern style, and feature abstract
business concepts rather than specific people. These will be used
on our website service pages.
```

Before AI: $500+ for professional photoshoot, 2-3 weeks lead time **After AI:** $29-99 for AI headshots, ready in minutes

---

5. Video Marketing

Business Need:

Creating professional video content without extensive equipment or expertise

AI Solution:

Tool: HeyGen

Example Implementation:

1. Write a script using ChatGPT
2. Generate a professional spokesperson video
3. Use for website, social media, or email marketing

Sample Process:

1. Generate script with ChatGPT:

```
Write a 60-second welcome video script for my accounting firm's
website homepage. The script should introduce our services (tax
preparation, bookkeeping, business advisory), mention our 15
years of experience, and end with a call to action to schedule a
free consultation. The tone should be professional but
approachable.
```

2. Upload to HeyGen and select a virtual presenter
3. Customize voice, appearance, and background
4. Download and publish

Before AI: $1,000+ for professional video production **After AI:** $19-50 for AI-generated video, ready in hours

---

6. Email Marketing

Business Need:

Writing engaging newsletters and promotional emails

AI Solution:

Tool: ChatGPT or Claude

Example Implementation:

1. Generate email templates for different campaigns
2. Create subject line variations to test

Sample Prompt:

```
Write a promotional email announcing our summer sale. Our
boutique clothing store is offering 30% off all summer items for
the next 10 days. Include:
- An attention-grabbing subject line (provide 3 options)
```

```
    - A compelling opening paragraph
    - 3 key benefits of shopping the sale
    - Details about online and in-store availability
    - A clear call to action
    The tone should be exciting but sophisticated, matching our
    upscale brand voice. Our target audience is professional women
    aged 35-55.
```

Before AI: 1-2 hours per email campaign **After AI:** 15-20 minutes to generate and customize

---

7. Market Research

Business Need:

Understanding industry trends and competitor analysis

AI Solution:

Tool: Claude (for document analysis) and ChatGPT

Example Implementation:

1. Upload industry reports to Claude
2. Ask specific questions about trends and insights
3. Generate competitor analysis frameworks

Sample Prompts:

```
Unset
I've uploaded our industry report. Please summarize the key
trends affecting small retail businesses in the next 12 months.
Highlight any opportunities or threats that are particularly
relevant to our boutique clothing store.
```

```
Create a competitor analysis framework for our local accounting
firm. We need to analyze 5 competing firms in our area. Include
categories for service offerings, pricing structure, target
clients, marketing approach, online presence, and unique selling
propositions.
```

Before AI: Days of research and analysis **After AI:** Hours to compile and analyze information

---

8. Business Planning

Business Need:

Developing strategic plans and forecasts

AI Solution:

Tool: ChatGPT or Claude

Example Implementation:

1. Generate business plan sections
2. Create SWOT analyses
3. Develop action plans for new initiatives

Sample Prompt:

```
Help me create a 90-day action plan for launching a new service
in our marketing agency. We're adding social media management to
our existing web design services. Include:
- Key milestones and timeline
- Resource requirements (staffing, tools, training)
- Marketing strategy to existing clients
- Pricing structure considerations
- Success metrics
```

```
The plan should be practical and actionable for a 5-person agency
with limited resources.
```

Before AI: Weeks of planning and drafting **After AI:** Hours to generate initial plans, 1-2 days to refine
