

# Physician Renewal Retreat

## March 20-22, 2025 Southern Utah

### Retreat Sponsorships and Promotional Partners:

#### The Good Listening Project

The Good Listening Project is a 501(c)(3) nonprofit dedicated to humanizing healthcare through the healing power of poetry and compassionate presence. We are a team of Listener Poets who meet one-on-one with providers, caregivers, and patients to hold non-judgmental space for them to share, process and make sense of their experiences.

Afterward, the Listener Poet writes a custom poem + origin story for the person they listened to, inspired by what they heard. We also facilitate small-group Brave Conversations, using these poems to foster connection and bridge understanding across differences. Lastly, our anthologies and podcasts aim to elevate underrepresented voices, showcase the humanity within healthcare, and support healing. Go to [www.goodlistening.org](http://www.goodlistening.org) to learn more.

#### Relational Leadership Partners

Dynamic skills. Stronger teams.

Relational Leadership Partners is a mission-driven organization that offers clinician-led programs empowering healthcare teams with skills to foster engagement, psychological safety, and a human-centered culture. It is not adequate to be "nice" in healthcare. RL Partners helps members of healthcare teams work better together by building trust, improving communication, and promoting psychologically safer spaces. Its consultations, workshops, team transformation, and coaching are tailored for lasting impact and sustainability. For more info go to [www.rlpconnect.com](http://www.rlpconnect.com).
