Enclave at Naples Condominium Association, Inc.

Dear New Tenant:

First and foremost, we welcome you to Enclave at Naples. Please be advised that we are not an apartment complex, this is a Condominium Association. To reside in an Association is a privilege, not a right. So with that said, there are Rules and Regulations in place and they are **strictly enforced**, a copy is attached herein, however, it is highly suggested that you read them in their entirety.

However, I will go over some of the items that require your immediate attention:

1. In your application packet, there is Vehicle Parking Sticker Form. Please fill it out its entirety. Please make a copy of your vehicle registration and include it when you return your completed application to your landlord. You will be issued a parking sticker; please be advised that stickers can only be issued to those on the lease. Please stop by the office BEFORE you take occupancy of the unit to pick up the sticker. If the sticker is not ready, please ask for a temporary parking pass from either the office or Security; their phone number is 239.250.0101. **If your vehicle is on property and it does not have a sticker or a temporary pass that is visible upon inspection of the vehicle, it is subject to immediate towing 24 hours a day and you will incur all charges for the towing. This includes your guests as well.**
2. In order to access the property you will receive a keyfob from the realtor or owner. There are keyfob pads at each gate. Once the gate is fully open then the arm will raise and you may proceed into the property, then the arm will drop. The system records who has accessed the property. **Therefore, tailgating into the Enclave is STRICTLY prohibited.** It is a safety violation and dangerous for all residents. Residents tailgating into the property will be subject to a Fine for each occurrence and are also subject to eviction and non-residents will be turned over to Collier County Sheriffs Office for trespassing charges and arrest. **You must grant your visitors access to the property by having a phone number in the call box. It is frowned upon to allow anyone through the gates if you are not at home.**
3. No articles other than patio-type furniture shall be placed on the balconies, patios, terraces or lanais. No barbeque grills are permitted. "No barbeques" means a cooking device that produces or uses an open flame or consumes, by burning, charcoal, wood, etc. such as a grill or stove that has an open flame. Anything that "burns" a fuel whether organic or inorganic is prohibited. Electric grills are, however, permitted as long as they have a cooking surface no larger than 200 square inches and are used responsibly.
4. Each unit may keep no more than two (2) household pets **not to exceed thirty-five pounds (35 lbs each)** in his or her Unit. No dogs or other pets shall be permitted to have excretions on any Common Elements, except areas designated by the Association, if any, and Pet Owners shall be responsible to clean up any such excrement. For purposes hereof, "household pets" shall mean dogs, cats and other animals expressly permitted by the Association, if any. **All pets shall be kept on a leash** no greater than eight feet (8') in length or carried by a responsible person when not in the applicable residence. **Violators are subject to eviction.**
5. No garbage, refuse, trash or rubbish, shall be deposited in anything but the dumpsters, it is not to be placed outside of the unit door in the hallway. Furniture and appliances are to be taken to the Collier County Landfill located at 3750 White Lake Blvd, Naples, FL 34117 Phone number 239-455-2830. **Illegal dumping of such items is subject to \$100 Fine per occurrence.** It is not the responsibility of the Association to remove these items from the property.

Thank you for your cooperation and again, welcome to Enclave at Naples.

Sincerely,
Enclave at Naples Condominium Association, Inc.

RE: NOTICE TO UNIT OWNERS REGARDING UNIT MAINTENANCE

Dear Unit Owner:

With the recent extreme winter weather in Southwest Florida, the Board of Directors wants to remind each unit owner of their responsibility to maintain their unit, pursuant to Article 7.1 of the Declaration of Condominium of Enclave at Naples ("Declaration"). Specifically, each unit owner's maintenance responsibility includes the duty to keep their unit properly ventilated and adequately temperature controlled, and free of any water leaks, even when the unit owner is not in residence. Each unit owner is also required to inspect their unit and take reasonable precautions to prevent the unit from becoming a source of mold or other hazardous pollutants.

By way of example and not limitation, it is recommended that each unit owner take the following measures in connection with their obligation to maintain their unit:

1. Power must be turned on in the unit at all times.
 - a. visually inspect all appliances within the unit and all related hoses and connections for condensation and leaks at least monthly in order to ensure that these are all in proper working order;
 - b. properly ventilate all portions of the unit, including, but not limited to, kitchens and bathrooms, by using exhaust fans and air conditioning;
 - c. open doors between rooms to increase air circulation in the unit, including doors to closets;
 - d. not block or cover any heating, ventilation, or air-conditioning ducts, vents, and intakes and keep furniture and furnishings away from such ducts, vents, and intakes;
 - e. engage a qualified, licensed, and insured contractor to service, maintain, inspect, clean and repair all major appliances, including, but not limited to, furnaces, heat pumps, air conditioners, ventilation systems, humidifiers and dehumidifiers at least annually;
 - f. engage a qualified, licensed and insured contractor to maintain, inspect, clean, and repair waterproofing, such as caulking to doors, faucets, drains, tubs, and showers at least annually;

Enclave at Naples Condominium Association, Inc.

- g. empty, clean and dry refrigerator, air conditioner, dehumidifier and all other drip pans and filters on a continuous and regular basis and to de-ice and defrost all freezers and ice making devices at least annually;
- h. clean all sliding glass door and window tracks to ensure proper drainage through the weep holes, at least monthly;
- i. have the air conditioning and humidistat operating to maintain a temperature between 75-80 degrees with 75 being the ideal temperature and the indoor relative humidity should be between 35% - 60% with 50% being the ideal humidity level. To prevent mold the humidity should never be above 60%.
- j. when a unit is expected to be or is actually vacant or unoccupied for a period of 48 hours or more, the unit owner should take the following steps:
 - (1) turn off the main water supply to the unit, and the individual water supply to the refrigerator, dishwasher and hot water heater, as well as any other device in the unit utilizing the water supply, except emergency or life-saving devices such as fire sprinklers;
 - (2) turn off the electric power to the water heater, being careful not to turn off power to the air conditioning, humidistat, smoke detectors, carbon monoxide detectors, emergency lighting or other emergency or life-saving devices;
- k. when a unit is expected to be or is actually vacant or unoccupied for a period of fourteen (14) days or more, the unit owner should take the following steps:
 - (1) arrange to have someone routinely and periodically, at least monthly, inspect the unit, in order to maintain a continuous and meaningful presence in the unit, to determine whether any mold, moisture, water leaks, or damage has occurred and notify the Association of this person's name and contact information. If any mold, moisture, water leak, or damage is found, the owner and/or occupant must take immediate action to remove the mold, moisture and water, sterilize the unit, without causing further damage to the unit, any other unit, or the common elements, make all appropriate repairs, and must notify the Association immediately in accordance with the notice provision contained herein.

Enclave at Naples Condominium Association, Inc.

- (2) clean stove and refrigerator;
 - (3) remove all garbage;
 - (4) remove all items from lanai;
 - (5) activate unit alarm system;
 - (6) remove ice cubes, turn off ice maker, and defrost freezer;
 - (7) run garbage disposal to completely clean drain;
 - (8) leave all closet, room, and all interior doors ajar;
 - (9) notify the Association in writing at least seven (7) days prior to intended absence, including out of town address, telephone number, facsimile number, and email and again within three (3) days upon return;
 - (10) leave keys to every vehicle, bicycle, scooter, or similar device stored on or in any unit, common element, or limited common element, as well as keys to the unit and storage unit with the Association; and
 - (11) cover toilets with saran wrap;
- l. clean, vacuum, and dust the surfaces within a unit on a regular basis, at least weekly;
 - m. replace batteries for thermostat and humidistat annually;
 - n. replace smoke detector batteries annually, and smoke detectors when they do not function properly, even with new batteries;
 - o. before bringing items into the unit, especially but not limited to plants, inspect for signs of mold;
 - p. immediately remove and thoroughly dry visible moisture accumulation or condensation on windows, window sills, and any other surfaces within the unit;
 - q. immediately clean, dry, and disinfect all liquid spills or leaks within the unit;

Enclave at Naples Condominium Association, Inc.

- r. promptly remove damaged materials that cannot be thoroughly and quickly dried, such as drywall and insulation, without causing further damage to the unit, any other unit, or the common elements;
- s. engage a qualified, professional, licensed, insured remediation company, approved by the Board, to mitigate and remediate any mold or damage to the unit resulting from moisture, leaks, or spills;

Further, each unit owner or occupant is required to immediately report to the Association, preferably by telephone and written confirmation, any event that could lead to the proliferation of mold, or any evidence of mold. The following events, by way of example and not limitation, must be reported:

- a. any evidence of a water leak or water infiltration or excessive moisture in the unit or in the common elements;
- b. any evidence of mold within the unit that cannot be completely removed with a common household cleaner or any evidence of mold in the common elements;
- c. any failure or malfunction of any heating, ventilating, air conditioning, humidistat, or similar device serving the unit or the common elements

Please be advised that strictly adhering to the above suggestions does not necessarily absolve a unit owner of their responsibility or potential liability in the event of damage to the Condominium Property, nor does it obligate the Association to pay for damage resulting from an owner's failure to implement these recommendations. However, it is a starting point for all unit owners to reduce the likelihood of future mold growth in their units, and on the Condominium Property in general.

Your cooperation in this matter is greatly appreciated.

Very Truly Yours,

Board of Directors
Enclave at Naples Condominium Association, Inc.
