

Become an Origins Affiliate

JOIN US TODAY!

Mindfulness • Nature-Led & Eco-Conscious • Global Education • Research-Based Online Learning

We are excited about your interest in becoming an **Origins Affiliate** and helping to share the work Origins Curriculum is doing by increasing our reach with new subscribers.

Origins Conscious Curriculum is the world's first of its kind. We combine high level academics with eco-literacy and mindfulness, and we are giving educators and homeschooling parents the tools and the platform they need to transform themselves, their students, and the world through a desperately needed paradigm shift in education. Origins Curriculum is a comprehensive approach to education that guides and grows a child's connection to their emotional, social, and environmental consciousness.

Origins Affiliate Program

Here's the gist:

- The Origins Affiliate Program offers a 30% commission on subscriptions that are purchased using your unique "Affiliate Share Link". This commission is good for the life of the subscription.
- Your sales are tracked in your Affiliate Portal and we pay out your commissions monthly through PayPal.
 - This means you'll need a PayPal account. You'll need to use the same email address you used to sign up for your PayPal account when you sign up to be an affiliate with us.

It's that simple!

The Details:

Share Links install a cookie onto the prospective customers' browsers for 30 days (or until they clear their cache). The installed cookie allows our Affiliate Program System to track views and conversions and automatically credit your Affiliate commission.

You are credited with your 30% commission on each sale made through your Share Link. As long as the purchase is made within 30 days on the same browser where the Share Link was clicked, you will be credited with the transaction.

Please note that while you will receive a 30% commission on recurring monthly subscription charges for a sale using your Share Link, the first month of our bundles are offered for *FREE*. (Subscribers are charged \$1.00 on this first trial month and you would receive 30% of that first month charge of \$1.00.)

Once you sign up, you will receive an Affiliate User Welcome email from us with your Login information to access the Share Links and a link to the Affiliate Login Page.

Once you have registered, you will receive an Affiliate User Welcome email containing the Login credentials and link to access your Affiliate Portal.

Your **Affiliate Portal** allows you to:

- View your Stats
- Access your Public Share Links
- Export your Purchase Summary Report
- Change your Settings to update your profile, email preferences, and change your password

When you have access to your Affiliate Portal, you can then begin marketing using your Share Link through your various marketing channels by simply sharing the link. *Your **Share Link** can be found on your Affiliate Portal page along with your stats and purchase summary reports.

If you are interested, please [SIGN UP at this LINK](https://www.originscurriculum.com/affiliate_users/sign_up)

**We hope you will join the Origins Affiliate Program
and help spread the word!**

If you have more questions, please email us at info@originscurriculum.com

About Origins Curriculum

- An online subscription curriculum for Preschool Classroom & Homeschool Educators
- Unschooling-Inspired and Research-Based

Explore Preschool Classroom Curriculum & Homeschool Curriculum for K-5th Grade

Origins is an adventure into global education, and hits all the required domains of learning and covers every subject taught in public school plus more. Students will dive into each global biome and learn about the regions in depth. They will learn about the original peoples, the flora and the fauna, about environmental concerns, economics, water cycles, weather patterns, food systems, soil types and how the regions are connected to the greater global web. These topics will be explored through the lenses of reading, mathematics, science, social studies, language arts, music and art and more, all the while weaving in eco-literacy and mindfulness.

Our lesson plans are designed based on 3 essential understandings:

1. That the Earth is a living body of interconnected patterns of relationships
2. That by knowing nature's ways we can learn more about who we are and how we are part of nature
3. That mindfulness is a way for us to know ourselves and experience our belonging to the Earth

Throughout the year we use these lenses to answer the questions:

1. **Who Are We? (Internal)**
2. **Who Lives Here? (External)**
3. **What's Happening? (Metaphysical)**
4. **How Are We Connected? (Interconnection)**

The answers to these foundational questions are found through our essential understandings into 4 over-arching Focal Points of learning – Internal, External, Metaphysical, and Interconnection.

Origins curricular framework offers an eco-system design approach to devising and implementing interconnected learning cycles (*thematic mandalas*). This approach incorporates the pillars of a sustainable way of life broadly used in the field of ecosocial design such as Ecology, Society, Worldviews, and Economy.
