

Luxury Home Installation – Wentbridge

WHERE CRAFTSMANSHIP MEETS CHARACTER
IN EVERY STEP

Setting the Scene

Nestled in the picturesque village of Wentbridge, this luxury five-bedroom home called for more than just flooring—it demanded elegance, precision, and flawless execution. With comfort and visual appeal at the heart of the design, every room had a purpose and a personality we needed to match.

Bedrooms with Comfort in Mind

Each of the five bedrooms was fitted with a soft, high-pile carpet, chosen not only for its luxurious feel underfoot but for its subtle, understated elegance. It created a cozy yet refined atmosphere, bringing warmth and cohesion to the upper floors.

The Spiral Centrepiece

A true highlight of the home was the spiral staircase and landing, where we installed a stylish flat-weave carpet runner. This wasn't a straightforward fit. Every step was individually templated, cut, and pattern-matched. Taped edges were applied by hand, with mitred corners folded and sealed to prevent fraying and ensure lasting quality.

Crafted by Hand, Built to Last

Dale himself took on the meticulous staircase work, forming perfect corners and securing edges with hot glue and clear adhesive. The care and precision in this part of the job turned a complex task into a true feature piece of the home.

A Gym with Design Edge

The bespoke home gym wasn't just functional—it was crafted with flair. After grinding the laitance and building up the levels using a deep-fill fibre-reinforced smoothing compound, we laid a 10mm rubber floor perfectly aligned with custom-designed borders.

Framing a Bold Statement

To elevate the gym's look, we installed a custom LVT border:

- A perfectly centered rubber core
- A surrounding LVT frame with twin black feature strips
- Herringbone and straight-laid patterns combined into a seamless, stunning finish

The result was dynamic, modern, and exclusive to the homeowner.

A Showcase of Domestic Excellence

From the soft serenity of the bedrooms to the technical elegance of the staircase and gym, this project showcased everything we value—attention to detail, creative precision, and finishes that speak volumes. This wasn't just flooring—it was craftsmanship made visible.
