

Leeds Business University – Flooring Built for Ambition

PRECISION FLOORING FOR FUTURE LEADERS,
DELIVERED WITH PRIDE.

The Vision

BAM Construction approached us to collaborate on a landmark educational facility—Leeds Business University. With over 5,000m² of space to complete, the project required more than just flooring—it demanded precision, coordination, and craftsmanship that matched the vision of a cutting-edge learning environment.

Our Role

While BAM oversaw the entire build, Dale Price Flooring Solutions was trusted with key flooring phases. We worked in tight coordination with other trades to ensure a seamless integration of materials, meeting high-performance expectations across diverse areas.

A Showcase of Design & Detail

Two standout features were the tiered lecture theatres. These spaces required meticulous detail—every stair nosing was installed with mitred corners, offering a polished, professional finish that reflected both form and function. It wasn't just about looks—it was about lasting performance.

- Carpet tiles in offices and teaching zones
- Safety vinyls in corridors and service areas
- LVT (Luxury Vinyl Tiles) in breakout and meeting rooms
- Entrance matting with aluminium-framed systems
- Detailed stair nosings with corner precision
- Subfloor prep including DPM and smoothing compound

Built on Schedule, Delivered with Confidence

The project ran to a clear, structured schedule—giving us the chance to focus on quality without compromise. We completed every flooring element on time, to spec, and ahead of handover.

Craftsmanship You Can See

This wasn't a "standard fit-out." Every space, every step, and every join was completed with care. The stair details in particular show off what happens when skill meets pride in the job.

A Project to Be Proud Of

Leeds Business University is now a place that inspires innovation—and we're proud to have left our mark on its foundation. From concept to completion, this project reflects exactly what Dale Price Flooring Solutions stands for: precision, quality, and flooring that elevates every environment.
