

# GENIE Spiral Map

*Unlock the next chamber of your life.*

## Why You Feel Stuck Isn't Your Fault

Most of us were never given a map for navigating major career and life transitions. We were handed personality labels, job titles, and checklists for success - but not a way to *evolve*.

You're not broken. You're just spiraling without a map.

The GENIE Spiral changes that.

## The Spiral, Not the Ladder

Growth doesn't happen in a straight line. It moves in spirals - like the chambers of a nautilus shell.

Each time you're called to evolve, you're invited into a new chamber of life. But first, you must release the old one.

Each chamber requires expansion, surrender, and redesign.

## The GENIE Spiral Framework: 5 REs

1. **Recognize** – Release outdated roles, beliefs, and identities.
2. **Relinquish** – Reveal hidden conditioning or inherited patterns.
3. **Retune** – Transform pain or confusion into aligned insight.
4. **Revitalize** – Install new systems, habits, and scaffolding.
5. **Respeat** – Align your outer life with your inner truth.

This isn't about fixing who you are - it's about transcending who you were.

## The GENIE Compass: What's Your Next Chamber?

Use this space to reflect:

- What am I outgrowing?
- What is my soul calling me toward?
- What would alignment feel like in career, finances, lifestyle?

## The GENIE Spiral in Action

### Example: Sarah's Shift

Sarah was a successful strategist in a top-tier tech firm, but her work felt empty. Through the GENIE Spiral, she relinquished the identity of “overachiever,” recognized generational pressure around security, and reframed her desire for freedom. Today, she runs her own strategy studio - aligned, profitable, and rooted in purpose.

Real change is not about escaping. It's about reclaiming.

### Your Next Step

You don't have to spiral alone.

The GENIE Spiral Framework is here to help you evolve - strategically and soulfully.
